- 1.** Do you have coccidiosis under control to the extent that you seldom have a minor outbreak of coccidiosis?
- 2.** Have you been able to raise your pullets over the last few years with a consistent low level mortality rate, while contending with this highly publicized leukosis (Marek's) disease?
- 3.** Has the mortality and the rate of lay of your pullets in their pullet year been satisfactory, so that you can be assured of a yearling capable of showing a profitable second year?
