Introducing . . .

Babcock's World Famous White Egg Layer The B-305

Q: What kind of a layer is the B-305?

A: It is a White Leghorn, designed by Babcock Research. The correct description is. "a 4-way inbred hybrid"

Babcock Hatchery, Inc.

Box 285, Lititz, Pa.
Phone 626-8561

Where in the World is Babcock? . . .
Wherever eggs are produced at a profit!

RAISING PULLETS on YOUR FARM?

WE RECOMMEND MUSSER'S M-327 CHICKS

The breed of 2 separate lines of Musser Leghorns, which when crossed, produced the sturdy M-327 Leghorn chick that you have been hoping for.

Why?

Because Musser's M-327 Chicks have

1. Coccidiosis under control to the extent that you seldom have a minor outbreak of Coccidiosis
2. A consistent low level mortality rate, while contending with the highly publicized leukosis (Marek's) disease
3. The mortality and the rate of lay so satisfactory that you can be assured of a yearling capable of showing a profitable second year
