

Lancaster Farming

SECOND SECTION

LANCASTER COUNTY DHIA MONTHLY REPORT

A Registered Holstein cow owned by Christian K Lapp, Gap RD 2 completed the highest 305 day lactation. Ovation produced 18 145 pounds of milk and 912 pounds of butterfat with a 5.0 per cent test.

Second high lactation was completed by a Registered Holstein cow owned by Richard H Hess, Strasburg, RD 1. Linda produced 21,430 pounds of milk and 839 pounds of butterfat with a 3.9 per cent test in 305 days.

The herd of Amos B Lapp, Gordonville, RD 1, had the highest butterfat average. This herd of 33 Registered & Grade Holstein cows averaged 58.3 pounds of milk and 2.10 pounds of butterfat with a 3.6 per cent test.

The herd of David L Landis, 1896 Colebrook Road, Lancaster, placed second. This herd of 274 Registered & Grade Holstein cows averaged 52.6 pounds of milk and 2.09 pounds of butterfat with a 4.0 per cent test.

Facts Dairymen Should Know

By: Victor Plastow
Associate Agricultural Agent

Louis Longo said that "Cooperatives have a major role to play in achieving top prices for farm produce through bargaining power. In order to exercise this bargaining power, there must be unity among the various milk marketing cooperatives. There are too many voices speaking for the dairy business," Longo believes that

Boards of Directors should be active, interested and progressive men.

It is a responsibility to be a board member, not an honor.

When a man fails in his appointed role, he should be replaced.

A cooperative is no stronger than its members.

Moving Into Free Stall Housing?

Stress will be great when cows are moved from the conventional stall barn to the free stall facility. Milk production will probably suffer. Being milked in a milking parlor can be a traumatic experience for cows until they become accustomed to it. Milking cows in a parlor for the first time can be equally hard on a man.

Slowly develop the milking routine you plan for the cows. Don't try to handle more than two units for the first few days. Spend extra time on udder preparation. Move slowly, deliberately and quietly. No hollering and no beating on the cows even though you will be tempted.

Use warm water in a bucket and toweling to prepare udders for the first week then use the hose and sprayer to wash udders. Be especially careful to prevent injuries to cattle while milking.

Keep strangers out of the milking pit.

Under no circumstances do

Local Holstein Passes 30,000 Pounds of Milk

One local Holstein cow has exceeded 30,000 pounds of milk and two others have topped 1,000 pounds of butterfat, according to the Holstein-Friesian Association of America.

Bonnie Comet Oimsby 5547951 (VG), owned by John W Eshelman & Sons, Red Rose Research Center, Lancaster, produced 30,090 pounds of milk and 1,034 pounds of butterfat in 305 days. She averaged nearly 46 quarts of milk each day throughout the testing period.

Smyrna View Apollo Lois 5824377 (VG), owned by Nathan E Stoltzfus, Gap, produced 22,113 pounds of milk and 1,013 pounds of butterfat in 365 days. Fultonway Cisscross Regina 63334755 (GP), owned by J. Mowery Frey Jr., Fultonway Farms, Lancaster, produced 19,374 pounds of milk and 1,041 pounds of butterfat in 365 days.

Ladies, Have You Heard? . . .

By Doris Thomas, Extension Home Economist

How to Beat Inflation

If inflation bugs you, don't just beef and bear it. Do something! Take your cue from the decade of the thirties when everyone watched their pennies.

They shopped smart, compared prices, passed up what they really did not need, bargained, and made good use of what they had on hand. If you do the same today, with incomes so much higher, you would actually make money because every saved dollar is a full dollar, whereas the earned dollar is reduced by taxes.

Here are a few guidelines for tax-free savings.

Buy only what you planned to buy when you go to the store. If you spot something you want desperately, go home and think about it for a few days. Chances are the urge to splurge will pass. Since most men are greater impulse buyers than women, you will be dollars ahead if you substitute lower-cost fish, cheese or egg dishes a couple of times a week for red meat.

Watch the newspaper for food sales. With a freezer you can buy enough of each sale of all you pay for food. And item for several meals.

THOMAS
