

AGWAY

WHO CARES? WE DO!

IMPORTANT!

FIELD CORN NOTES

Seed Treatment. Agway has joined practically every other seed company in not treating the seed for soil insects, because of the type treatment that must be used. However, we are making available a SPECIAL type of Diazinon for seed box treatment, to control corn maggot. This may slightly suppress but will not control wireworms.

We highly suggest you use this treatment on every bushel you plant.
