

ALLIS-CHALMERS CULTIVATORS

OWNING a cultivator is like having an insurance policy. Maybe you don't use it as much as you used to . . . but when you do, it's still a good policy to have the best one.

Every Allis-Chalmers wide-row and narrow-row cultivator is built to be the best. Big, husky tool bar made from *four-inch square* structural steel. Two big disc stabilizers to keep it on the course you steer. And wobble-free parallel linkage gangs to let you cultivate close and clean . . . up to 12 rows at a time.

So if you have to cultivate, do it right . . . with an Allis-Chalmers cultivator.

Alfred Wanner Named To Milk Coop Board

Alfred Wanner, Narvon, has been elected to the board of a recently added district of the Eastern Milk Producers Cooperative Association, Inc., in South-eastern Pennsylvania.

For the first time in the history of Eastern a former president has been elected president of the board of directors. Elected Thursday, June 4 was Howard Merrill, Walton, New York dairyman.

Reelected to their posts as officers of the association were Francis Cole, Iilon, New York, vice president; and J Thomas Cribbs, Pleasant Mount, Pennsylvania, treasurer.

Named as new secretary was Herman Herklotz, Franklin, New York. He succeeds Everett Green, Warren Center, Pennsylvania.

Named to the executive committee of the Eastern Board of

Five Cooperators Added

Directors were Merrill, Cole, Herklotz and Dwight Burnham of Vergennes, Vermont.

Dale Putnam, Heuvelton, New York, succeeded Leonard Brody, Michael, Winthrop, New York, on the board.

New cooperators for the Lancaster County Soil and Water Conservation District approved recently are:

Arlene H. Hess, East Lampeter, 80 acres; N. Parke Miller, Mount Joy, 12 acres; Thome Farms, Inc., Mount Joy, 112 acres; Eugene and Patricia

Brody, Rapho, 64 acres; and John H. Hershey, East Donegal, 80 acres

WHITE WASHING

with

DAIRY WHITE

- DRIES WHITE
- DOES NOT RUB OFF
- NO WET FLOORS
- IS COMPATIBLE WITH DISINFECT

Help Us Serve You

Is your farm organization's meetings making our farm calendar? If they're not and you think they should, let us know.

As a public service to farmers and the farm community, we try to get as many meetings as we can on the calendar. But we miss some.

Remind us by calling 394-3047 or 626-2191 or by writing to Lancaster Farming, 22 E. Main St., Lititz, Pa. 17543. You can help us serve you better.

DIFOLATAN® 4 FLOWABLE

The only flowable fungicide made to fight potato blight.

Last year we introduced DIFOLATAN 4 Flowable. This year it's the fastest selling potato fungicide on the market.

There are a lot of reasons for this. One is that DIFOLATAN is the only completely flowable fungicide you can buy. That makes it easier to handle. There's no dust to bother you when pouring it. And because it's flowable, it goes through any nozzle. In other words, it won't clog your equipment.

And when it comes right to the heart of the matter — fighting blight — ORTHO DIFOLATAN is better than any fungicide being sold today.

It gives excellent protection against both early and late blight. And is particularly effective against tuber rot.

DIFOLATAN sticks to the plant, resists weathering from rain or sprinkler irrigation. That means you can maintain your schedule without worrying about the effects of weather or irrigation.

Protection against tuber rot is outstanding. When you put potatoes in storage, you'll never know how well you did in the blight fight until you've shipped the last of them. Fields may look reasonably healthy before harvest, but if you put infected tubers into storage, you can find yourself with a costly, heavy cull out of late blight tuber rot infection.

DIFOLATAN works to give you greater yields of healthy potatoes. And—because it's flowable—it does that even better.

The first time you use DIFOLATAN 4 Flowable will be the last time you ever see potato blight.

Another good thing about the fastest selling potato fungicide. It works on cucumbers, melons, and tomatoes, too.

Gravy Train.

• POWERFUL MOTOR "UP AND AWAY" FOR SERVICE, SAFETY
• HUGE, FLARED 34" TROUGH FOR EXTRA CAPACITY

Strength, Performance, Dependability. You've got 'em all with VAN DALE'S NEW TRAVELING BUNK FEEDER.

Van Dale's SCF-1400 is the traveling feeder to put you on the track to faster, more profitable operations. Automatically, it delivers up to 40 tons of silage per hour to bunks on a single chain, continuous "shuttle" service.

Feeder trough chain is No. 67 pin-
tle (12,500 lb. strength) and drive chain is C-550 steel (average top strength of 10,000 lbs.). Interlocking, snap-together galvanized metal components reduce erection time as much as 50%. Suspended or floor-mounted, rails are mounted with Van Dale's exclusive clip-on brackets to provide extra-rigid support. Unit adapts to any feeding need in-barn or out-of-doors.
