

The Penn Willow 4-H Community Club held its roadside cleanup on June 20 in Poquea and Conestoga Townships from 9 a.m. till noon. A truck was loaned by each

township. After the cleanup the participants ate lunch at Mrs. Breneisen's home From Dennis Landis.

YES, YOU CAN MAKE MORE MONEY FROM YOUR STEERS!

Red Rose
CATTLE FEEDS

The Red Rose 3-Point Program is the Way.

1. Always bring good cattle into your feed lot.
2. When you buy steers — get them to the feed lot as quickly as possible.
3. Use Red Rose Cattle Feeds.

Feed Red Rose Beef Cattle Starter Pellets Medicated for 21 days after steers reach the feed lot. To remove internal parasites use Red Rose Worminator. After 21 days use Red Rose 32 Beef Cattle Supplement or Red Rose 50 Beef Cattle Supplement to fit your grains. Use Red Rose Super Mineral to improve feed conversion. Then — you're on your way to feeding success which ends in good profit!

Today - tomorrow for sure - call these dealers for your cattle feeds:

Aquatic Weed Control Begins in State Lakes

Secretary of Forests and Waters, Maurice K. Goddard, announced recently that the 1970 aquatic weed control program will be implemented in eight State park lakes throughout the Commonwealth.

The purpose of this program which was initiated at Gifford Pinchot and Hills Creek State Parks in 1968, is to provide a degree of aquatic vegetation control commensurate with the recreational and aesthetic uses of these State park lakes.

During the last two years, more than 2,000 acres of water

were recovered for recreation as a result of this program. In 1969, seven State park lakes were treated.

Aquatic vegetation control is becoming more important as eutrophication adversely affects state park lakes and as at the same time public use of these lakes increases.

The aquatic weed control program is administered by the Bureau of State Parks in cooperation with the Pennsylvania Department of Health and the Pennsylvania Fish Commission. In development of this program, considerable emphasis is placed upon making it as compatible as possible with all water uses.

The purpose of this program is to provide a degree of aquatic vegetation control commensurate with the recreational and aesthetic uses of these State park lakes.

Poultry Exposition

The Pennsylvania Poultry Federation reports that the Board of Directors of Neppco have joined hands with the International Poultry Industry Exposition and are going to hold a Neppco-Pimco Exposition in Cincinnati, Ohio on October 26 to 29.

Dick Ammon reports that much of the space is already booked and he feels confident that this will be one of the nation's leading poultry exhibitions.

Improvement Program

A major Department of Agriculture program to improve the environment got a boost recently with removal of a budget restriction on the number of small watershed projects which can be approved for operations. Secretary of Agriculture Clifford M. Hardin announced.

Further information can be secured by writing to the Neppco Office at 10 Rutgers Place, Trenton, N.J. or to the Pennsylvania Poultry Federation, 3807 Paxton Street, Harrisburg, Pa.

Secretary Hardin said that lifting the budget limitation will permit preliminary work to proceed on 25 watershed projects in 16 States (None are in Pennsylvania).

GEHL 72 CHOPPER

GREEN CHOPS NON-STOP!

The Gehl FC-72 Flail Chopper breezes through the heaviest green chop — cuts a six-foot swath, rain or shine! Compared to grazing, the Gehl 72 can double the usable feed per acre. Provide your cows with the lush, fresh feed they need for top, consistent production. Downtime repairs? No problem! The Gehl 72 is the most trouble-free chopper made. Features include:

1. 39 Reversible Flails (Full six-foot cut).
2. Unitized Knives and Fan Blades.

3. Easy Knife Adjustment.
- Plus . . . Easy Swing drawbar that gives you four positions (3 offset, 1 transport).
- Call us today for a free demonstration — or come in and see the FC-72 yourself. Financing available.

Make us Prove it with a Demonstration!
