

Clair Witwer (left) of 617 Strasburg Pike, Lancaster, is greeted in Washington, D.C., by C. W. St. John, of Redfield, Arkansas, National FFA Vice President of the Southern Region.

Witwer Attends National FFA Leadership Meeting

Clair Witwer of the Garden Spot FFA Chapter at Lampeter-Strasburg High School is attending a National Future Farmers of America Leadership & Citizenship Conference in Washington, D.C. this week. The week-long conference is being held at the National FFA Center near the Nation's Capital.

Dairy Research, Inc. to Develop Industry Information Service

William W. Menz has been appointed Manager of Information Services for Dairy Research, Inc. the dairy industry's research and market development organization.

Menz will organize an information service of data covering the entire dairy industry which will answer questions pertaining to technical and non-technical aspects of the organization's field of interest. This service will be available to the personnel at Dairy Research and others requiring dairy food information.

Menz brings a broad background of data organization and retrieval to his position at Dairy Research. His immediate task will be to build an informational

set-up which includes the gathering and dissemination of information pertinent to the dairy and food industries.

Following his formal education in Munich, Germany, and at Ohio State University, Menz completed various information services assignments for the US Army Air Force, US Public Health Service, Ethyl Corporation, and most recently R. J. Reynolds Tobacco Company. At Reynolds, Menz was in charge of the library and literature retrieval section where he assisted in the development of many Reynolds' food products.

Menz holds a Master's degree in chemistry from the University of Munich. He is a member of the American Chemical Society, Sigma Xi, and the Society of Technical Writers and Editors.

William W. Menz

ship skills, develop an understanding of the national heritage, and prepare FFA leaders for more effective leadership roles in their chapter and community. In addition, the Conference serves as a forum for the exchange of FFA chapter program ideas among officers from across the nation.

Besides the training sessions, the FFA program also includes visits to Mount Vernon Plantation, the National Archives, Arlington National Cemetery, and several other historic monuments and memorials in and around the Capital.

A highlight of the week's activities came on Wednesday morning when Witwer met with Congressman Edwin Eshelman of Lancaster. Later, Witwer attended a Capitol Hill luncheon where he and other FFA members discussed the Congressional process with the Hon. William Nichols (D) of Sylacauga, Alabama.

Witwer is the son of Mr. and Mrs. Roy U. Witwer, of Lancaster. His vocational agriculture instructor is Galen Kopp.

HUSKY HAULERS

Built big . . . built tough . . . that's why farmers who own the big and brawny forage boxes from Avco New Idea call them "Husky Haulers". Choose from two great models — all wood standard box or steel reinforced deluxe box. Whichever you choose, you get the same top quality variable speed belt drive transmission, bed conveyor and cross conveyor that unload box in 3 to 12 minutes as desired. Two or three beater mechanism available. See the husky ones today at

Gravy Train.

• POWERFUL MOTOR "UP AND AWAY" FOR SERVICE, SAFETY
• HUGE, FLARED 14" TROUGHS FOR EXTRA CAPACITY

Strength, Performance, Dependability. You've got 'em all with VAN DALE'S NEW TRAVELING BUNK FEEDER.

Van Dale's SCF-1400 is the traveling feeder to put you on the track to faster, more profitable operations. Automatically, it delivers up to 40 tons of silage per hour to bunks on a single chain, continuous "shuttle" service.

Feeder trough chain is No. 67 pin-tle (12,500 lb. strength) and drive chain is C-550 steel (average top strength of 10,000 lbs.). Interlocking, snap-together galvanized metal components reduce erection time as much as 50%. Suspended or floor-mounted, rails are mounted with Van Dale's exclusive clip-on brackets to provide extra-rigid support. Unit adapts to any feeding need in-barn or out-of-doors.
