### They Look New; They Are New!

### **NEW** BUTLER **GRAIN BINS**

The new Butler grain bin-with wider body sheets, a broader corrugation and fewer parts—provides real savings and faster, easier erection. Other high performance improvements include a steeper roof for more grain storage capacity; a new floor—a stronger, clear-punched floor which installs quickly; a new step-in door with corrugated frame, located above ground; and many more. See us today for details on the new Butler bin.

# Pa. Tart Cherry Crop Hit By Weather, Rot, Birds

Pennsylvania tart cherry grow- er crop. Growers expect to harers, who earlier in the season vest 500 million pounds. Damage at 3,200 tons, unchanged from expected a bumper crop, have from weather and disease is re- lest year.

had a serious setback. Production is now estimated at 9,000 tons, a drop of 4,000 tons from the July 1 forecast, and 18 per cent below last year, according to a survey by the State Crop

Reporting Service Heavy rains and below normal temperatures caused splitting and brown rot in the important southcentral district where growers also complained of consired-8 able bird damage. Erie County 8 producers were more fortunate and their large crop accounted for a significant portion of the state's production.

Quality of the fruit was gen-4 erally fair to poor.

Picking of early peach varieties began later than usual because cool, wet weather delayed maturity. Quality and size of early varieties were good.

Total state production is expected to be 84 million pounds, less than previously anticipated. and 30 per cent below last year.

Apple production in the Commonwealth this year will lag five per cent behind last year's bumpported at a minimum.

Erle County grape growers are looking forward to a 39,000 ton crop, an average year, but up 56 per cent from last year's disappointing crop. Grapes are large and well advanced

Pear production is estimated
