Satisfaction That Comes trom **Doing A** Good Job Of **Farming**

It's a great feeling to know that you are the master of your farmlands . . . that when you treat your soil right, it will treat you right. Liming is one of the most important factors in keeping your soil in the highest productive range. By raising the pII from a level below 6.0 to 6.5 or higher, you can expect to harvest as much as 5 more bushels of corn per acre, with similar increases for all other forage and cash

Gap, Pa. 442-4148

John Deere just popped the lid off combine productivity in every price range

Now you can step up in combine capacity without stepping out of your price class. New Generation John Deere Combines make it possible. Choose from four models. The biggest is about 25 percent more productive than any previous John Deere Self-Propelled. Each model is designed to give you more capacity for your money. And each is packed with pleasures to spoil you every day you drive it. Come in and drive home a bargain.
