GOING through those wet spots ... up those hills ...bet you've been slippin' (and swearin')...and wishin' you had another 10 horsepower and another 100 pounds of weight on the

rear wheels. This is the time to stop sliding backward and take a big step forward. Give us a call and we'll put you in the seat of an Allis-Chalmers One-Seventy. Its 54 horsepower\* and Traction Booster system will flatten out those hills and day out the wet spots faster than you can say @#%?&"(.

When the going gets tough, the draft arms of the One-Seventy's 3-point hitch signal the Traction Booster system, which automatically transfers more of the load to the rear wheels. Far less slippin' to waste power and wear tues. Try it today. Going Orange is Going Great!
