

USDA Certifies Six Pa. Meat Packing Plants

Six Pennsylvania meat packing plants in Pennsylvania to attain requirement for eligibility to participate in a cooperative federal state inspection program. This certification as a result of surveys made by USDA," he explained. "We expect more will be certified shortly and that eventually all eligible plants will qualify."

The plants are, Hazle Park Packing, Hazle Park; Kessler's Inc., Lemoyne. Knupp Brothers, Harrisburg RD3; Peters Brothers, Lenhartsville; Pudline's Home Dressed Meats, Johnstown, and Smith Provision Co., Inc. Erie

Two years ago Pennsylvania's meat inspection plans were approved by USDA as "at least equal to federal standards" — a

All are under Pennsylvania's new meat inspection program. State Agriculture Secretary Leonard H. Bull said "This is the first group of meat

Eugene Hoover, Lititz RD3, sales representative of Trojan Corn Co., this week inspects one of the firm's better varieties on a joint corn plot with Organic Plant Food Co. along Route 722 one-half mile south of Lancaster Airport.

A field day to show off this and 16 other Trojan corn numbers, including some high lysine numbers, was held at 1 p.m. Friday at the plot.

New John Deere 115-hp 4320 and 135-hp 4620

Power is up . . .
price-per-hp
is down

Any way you consider these new tractors,
you come out money ahead.

From a performance standpoint, both tractors feature a Turbo-Built Diesel engine that delivers an extra margin of power—A Dynamic Power Reserve that increases work output per hour and expands acreage-handling ability.

From a list price standpoint, both tractors are well below the \$100-per-hp rule of thumb. Included in the base price

are a 3-point hitch, Independent PTO, double-action cylinder outlet, and adjustable drawbar. Both the 4320 and 4620 deliver a lot of extras at no extra cost to you. Stop in for complete price information . . . and arrange a field test.

Apply Lime In The Fall For A Better Crop Next Summer

Fall liming assures proper limestone distribution in the soil, ready for spring planting. The freezing and thawing of winter aid in the process of limestone dissemination. So, why wait, correct your soil deficiency now by liming, and reap a bigger harvest next summer.
