30 Brown Swiss Sold At All-American Show

Thirty animals were sold for an average price of \$760 at the Brown Swiss sale at the 7th Pennsylvania All American Dairy Show

The sale was sponsored by the Pennsylvania State Brown Swiss Association

The top price of \$1,300 was paid by Select Sales of Columbus, Ohio for a bull calf Ebenezer Laddie's Meit. The animal was consigned by Carl Helsel of Ebenezer Farm, Portage, Pa. The sire was Wayne's Laddie G and the dam Ebenezer Supreme Melody.

Two cows brought \$1,100 each. Buyers from six states were bidding on the animals which represented outstanding blood lines of the Brown Swiss breed, according to Myron Fledderjohann, fieldman of the Brown Swiss Cattle Breeders' Association of America.

It was the first Brown Swiss invitational sale to be held in conjunction with the Pennsylvania All-American. "We anticipate the sale will become an annual event at which we will offer animals of All-American caliber for bidders," Fledderjohann said.

Her Brother's Keeper!

Barbara Doefler, 18, Washington County's dairy princess at the Pennsylvania All American Dairy Show, is the kind of sister any brother would like to have.

Before leaving for Okinawa and Vietnam nearly three years ago, her brother Jack, a U.S. Airman, confided to Barbara that he would like to be a dairy farmer when he finished his overseas hitch.

"Breed my Guernsey cow, keep any heifers but sell any bulls" were his parting words as he left for the Orient.

Barbara, who lives with her parents, Mr and Mrs John A. Doefler, Eighty-Four, RD1, has done more than that. She's even used some of the money she's earned as a dental technician to purchase any likely looking Guernsey heifers she's encountered.

When Airman Doefler returns home and becomes Mr Doefler, hopefully within three weeks, he'll find he now owns a 13-head herd of Guernseys.

The Satisfaction That Comes From Doing A Good Job Of Farming

It's a great feeling to know that you are the master of your farmlands . . . that when you treat your soil right, it will treat you right. Liming is one of the most important factors in keeping your soil in the highest productive range. By raising the pH from a level below 6.0 to 6.5 or higher, you can expect to harvest as much as 5 more bushels of corn per acre, with similar increases for all other forage and cash crops.
