

## Farm Women Complete Plans for Convention

(Continued from Page 11)  
 Feature speaker will be Mrs. Evelyn A. Sempier, Berwyn, Miss America of 1954.

Special music will be presented by the Lampeter-Strasburg Hand Bell Ringers and the Lancaster County Chorus of Farm Women under the direction of Mrs. Scott Nissley.

A gift to be presented to the Farm and Home Center was approved.

Two representatives from each of the 31 Societies will assist the Heart Association in their Christmas Card sale by sitting at the County banks during one week in November. Mrs. Doris Fenstermacher, executive director of the Lancaster County Heart Association will supervise the activity.

Farm Women will continue to visit guests at Conestoga

View until the end of the year. At that time a new system of giving will be proposed based on a study of the kind of visitation that is most needed.

Farm Women are of the opinion that a personal visit is worth more than a gift left in a guest's room. Since a well planned diet is served the guests gifts of cookies or fruit may upset the dietary schedule and create sanitation breaches thus increasing the work load of the staff. A committee will be appointed by Mrs. Hess to confer with the administration of the hospital to plan mutually satisfactory visits.

Scheduled to visit on the third Thursday of each month remaining this year are Societies 27 and 28 in October, 29 and 30 in November and Societies 31 and 1 in December.

The Lancaster County candidate for Farm Woman of the Year should submit their application completed to Mrs. John Hess, Columbia RD2, by October 15 so that one woman may be named to represent Lancaster County in the state contest at the state convention in January. The Lancaster County winner will be announced at the County Convention.

Christmas — Sixty volunteers from 12 local societies will prepare TB seals in envelopes for mailing by the Lancaster County Tuberculosis Society. They will work in shifts of six ladies from 9 a.m. until noon, and from 1 p.m. until 4 on each day beginning Monday, Oct. 12 through Oct. 16.

In other business any farm woman interested in joining the County Chorus, under the direction of former County president Mrs. Scott Nissley, are requested to be present at the East Petersburg Church of the Brethren at 8 p.m. October 13. The chorus is scheduled to sing at the County Convention in the Farm and Home Center auditorium November 7.

## PURINA<sup>®</sup> FARROWING CHOW<sup>®</sup>

*Bulky-Laxative-Palatable*

Farrowing Chow was built specifically to give your sows that extra help they need at farrowing time.

- 1) It's the kind of bulky, laxative ration sows need just before and after pigs come.
- 2) Sows like it, go for it... at a time when they are often "finicky" eaters.
- 3) It's highly fortified with extra vitamins and minerals sows need at farrowing time.
- 4) Farrowing Chow FZ contains nf-180, which helps control scours in baby pigs.
- 5) It's a complete ration... easy to feed and store.
- 6) It's the result of five years of testing on sows at the Purina Research Farm.

Give your sows every chance to farrow big litters and get 'em off to the right start.

Give them the "built in" advantages of Purina Farrowing Chow. Available now at our store.

For general information, contact Hess and Clark.

## DUNCAN CORN CRIB

Rods Slide Quickly Into Place — Lock Panels Into Unbroken Cylinder Of Galvanized Mesh

High pitch roof approx 45° pitch 24 gauge roof panels

NOW, you can own a permanent, lifetime, all steel mesh corn crib for less than the cost of many temporary cribs.

Have all the strength and anti-rust characteristics the galvanized mesh can have. Using the interlocking joint panel connections you quickly hook together and lock with rods, creating an unbroken cylinder of 2 or 5 gauge steel mesh with the ability to stand pressures and strains far in excess of any which may be put upon it under normal use.

The simple "J bolt" method of attaching the steep roof to the mesh uses the inherent strength of each to reinforce the other. A generous 6 inches of overhang has been provided for greater protection. Interlocking sheets of heavy gauge metal give the "Rod Lok" Corn Crib roof strength to stand the highest wind and hold

the heaviest snowfall. Top cap and hall panel on roof removable for easy filling. Large slat door opening. Slats not furnished for door.
