Where Leukosis is a Problem?  
**We Recommend You Order MUSSER'S M-327 CHICKS**  
Started and Matured Pullets and Yearling Hens and Breeding Cockerel

**WHY?** Because our breeding and our resistance program on our farm has given us three distinct controls over coccidiosis and leukosis.

**Another World Famous White Egg Layer! The B-305**

Q Do you have any Random Sample Test data on the B-305?  
A Yes we actually do, and it is very interesting data The B-305 was entered in three Random Sample Tests during the 1968-69 test season that recorded income over feed and chick cost These Random Sample Tests were the 15th Missouri, the 10th New Hampshire and the 12th Pennsylvania The B-305 ranked 1st for income over feed and chick cost in both the 15th Missouri and the 10th New Hampshire In the 12th Pennsylvania, the B-305 was ranked third in income over feed and chick cost, however, the B-300 was ranked first in this test and the second ranked bird was only 4c ahead of the B-305.
