## Poultry & Supplies

## Is This The NEW KIMBERCHIK?

No. The difference in the new Kimber is not in the appearance. It is in the performance. If you have not had Kimbers in the last 6 months, you will want to try a flock. You can expect more and larger eggs as well as thick shells and the exceptional interior quality Kimber is famous for.

### MOYER'S CHICKS, INC.

Quakertown, Pa. 18951 215-536-3155

## Introducing . . . The B-305

Q: What other data do you have from your field tests on the B-305?

A: Field test performance and Random Sample Test data confirms similar performance between the B-300 and the B-305. The most important difference between the B-305 and the B-300 is increased Marek's resistance in the B-305. We doubt if most producers will be able to measure any significant differences in the various production characteristics.

### Babcock Farms, Inc.

Box 285, Lititz, Pa.  
Phone 626-8561

Where in the World is Babcock? . . .  
Wherever eggs are produced at a profit!

## Raising Baby Chicks and Started Pullets on Your Farm

Where Leukosis is a Problem?

### We Recommend You Order MUSSER'S M-327 CHICKS

Started and Matured Pullets and Yearling Hens and Breeding Cockerel

WHY? Because our breeding and our resistance program on our farm has given us three distinct controls over coccidiosis and leukosis.
