

A house of capons on the Miller farm ready for the Thanksgiving market.

Millers Expand a 4-H

(Continued from Page 17) Robert and Paul each had five hogs in 4 H projects and Stanley had three, although they did not get heavy credit for the Round-Up at the stockyards.

Charles has been driving a Manheim Township school bus for two years. His run from the Milton J. Bright School goes via Park City, Weigens Chevrolet and the Mennonite Home Prior

to driving a school bus he week. At that time Millers kept 200 Lehigh layers and sold eggs at the farm.

Millers belong to the Evangelical Congregational Church in Litz where Mr. Miller is a Steward and he and Robert sing in the choir. Mr. Miller is Assistant Sunday School Superintendent and Mrs. Miller

teaches a class of older women. The three boys are in the church youth group. The whole family is interested in the missionary outreach of the church.

Bernice works with a teenager (12-20 years) mission group that meets once a month. They have speakers sometimes and film strips. Some of their projects are making Spend-A-Day calendars in which the church prays for a missionary on a certain

(Continued on Page 23)

**Pick a John Deere

as your haymaker,
get this bonus...**

**Exclusive hydraulic
Power-on-Demand
to unload feedlots
and barnyards fast.**

A package of big-tractor features... wrapped up in a compact, two-ton tractor design... that's the "1020." For haying, it provides well-spaced travel speeds ranging from 1.2 mph in 1st gear to 7 mph in 6th. It delivers "live" PTO power through midpoint and rear PTO outlets to drive a full lineup of hay tools. For loading chores, the "1020" generates hydraulic Power-on-Demand to lift a 1/2-ton bucket load... and provides "floating" hitch control over rear blade. Be our guest for an on-your-farm test. Credit? You bet.

LABOR SAVER

"Systemated" by

Big Dutchman.
A DIVISION OF U.S. INDUSTRIES INC.

THE ALL NEW FLAT DECK CHIK-EZE PULLET REARING CAGE

... offers durability, economy, performance and practical labor saving features that increase management efficiency.

The heart of the system is the Big Dutchman chain and trough feeder providing 96 inches of feeding space per cage. There is full availability of all the feed to all the birds. All feed is automatically recirculated and remixed, resulting in better feed consumption.

Extra feed capacity makes high density of birds per cage row practical and manageable.

FLAT DECK CHIK-EZE FEATURES

- High bird density per square foot of building.
- Easy accessibility for better management.
- Uniform distribution of heat, light and fresh air.
- Fully automated feeding and watering from day old to 20 weeks.
- Better feed conversion; less feed waste.
- Single water adjustment for entire growing period.
- Minimum stress. Feed and water easily accessible. Cleaner, healthier birds.

The world's finest systemated equipment is at
your Big Dutchman distributor now.
