

Among Local 1971 Farm Show Winners

Sheep Results

Only two Lancaster County exhibitors received top placings in sheep competition at the Farm Show this week. Both were in the Hampshire Breed.

They are Robert R. Buch Ephrata, fourth in ewe class under one year old, and Mi and Mis Clyde Brubaker, Lancaster, fifth in ram class under one year old.

Except for two exhibitors from Dauphin County, the champion and reserve champion sheep were from areas of the state distant from Lancaster County and Southeastern Pennsylvania.

Besides Hampshire, sheep breeds represented were Cheviot, Dorset, Shropshire, Southdown, Suffolk, Corriedale, Merino and Rambouillet.

Honey Exhibits

Daniel A. Brubaker, Ephrata RD1, was the only Lancaster Countian to place first in a honey class.

Brubaker was first in Class 3, light cut comb honey.

Brubaker was also second in class 8, light amber extracted honey.

Other placings included Daniel M. Fitzkee, Manheim RD2, second in class 7, extra light amber extracted honey, and fifth in Class 8, light amber extracted honey.

Daniel A. Brubaker, Ephrata RD1, fifth in Class 1, light comb honey, John M. Shank, 1954 Larch Ave., East Petersburg, fourth in class 3, light cut comb honey, and fifth in class 14, commercial beeswax.

George L. Lefever, Strasburg RD1, fifth in class 6, white extracted honey, and fourth in class 12, dark extracted honey; John Brenner, Lititz RD3, seventh in class 22, extra light amber extracted honey.

The Lancaster County honey exhibit placed second to Westmoreland County in the collective exhibits.

in Macoun, fifth in McIntosh and fourth in Northern Spy.

In best tray (20 apples), Brubaker was fifth in Cortland, second in Macoun, fourth in McIntosh, and second in Northern Spy.

In roadside pack (16 to 24 pounds), he was first in Northern Spy, third in Cortland and second in Macoun.

In overwrap trays, he was second in Macoun. In best plate (five apples), he was fifth in Cortland, second in Macoun and third in Northern Spy.

Edible Nuts

Lancaster Countians won or placed high in several edible nut classes as follows:

Miles O. Nolt, Manheim RD1, was first in two classes, the Busseron variety of pecans and

"other" varieties of pecans. He was fifth in the seedlings class of Persian or English Walnuts.

Elam Longenecker, Manheim RD2, was first in seedlings of shellbark hickories and first in "other" varieties of shagbark hickories.

D. A. Brubaker, Ephrata RD1, had the following placings: first in the seedlings section of native American chestnuts; third in kernels (one-half pound) of heartnuts; second in seedlings of shagbark hickories; fifth in seedlings of butternuts.

D. B. Brubaker, Ephrata RD1: second in seedlings of native American Chestnuts; second in seedlings of shellbark hickories; fourth in seedlings of butternuts.

Here's The Way To Make More Money Above Feed Cost!

Dairy feeds at different prices do not have the same productive value. You usually get what you pay for. Lower-priced dairy feeds often produce less milk — and make less profit.

RED ROSE DAIRY FEEDS are the feeds you should use. These feeds (available in many protein levels) enable a cow to produce up to her inherited capacity. In the long run you can make more money above feed cost with high quality Red Rose Dairy Feeds. The price per ton is relatively unimportant. What is important are the results! If you use supplements, again Red Rose has one suited to your need.

Be determined to earn more money from your dairy herd this season. Decide to use Red Rose Dairy Feeds. So, why not call your dealer, now.

Belgian Horse Event

Elmer D. Lapp, Kinzer RD1, took a first place in Belgian horse events at the Farm Show this week.

The win was in the "one hitched horse" class.

Lapp, who has entered the Belgian competition for many years, also had a third place in the stallion foal class, a third in the any age stallion class, a second in the mare five years and over class, and a third in pair of hitched horses event.

Apple Exhibits Win

While farmers from Franklin and Lehigh Counties were most frequently listed among the winners in apple competition this week at the Farm Show, one Lancaster County exhibitor's name was often mentioned.

He is D. A. Brubaker, Ephrata RD1.

In the bushel, tray-pack class, Brubaker has a first in Northern Spy variety, second in McIntosh, second in Macoun and second in Cortland.

In the bagged apples class (three pounds), he had a second

KILL RATS and MICE FAST with FERRET ...the great new

breakthrough in Rat and Mouse Control

Fancy packaging and overdrawn claims are claimed by farmers and feeders coast to coast. Aimed at the public, but do not fool rats and mice. To kill rats and mice you need the amazing Ferret Rat and Mouse Killer. Rats find it irresistible, steal the deadly little sack and carry it to their nest. Ferret is used and ac-

Announcing: a dry "pop-up"! Can cut planting time in half!

Ortho Unipel STARTER SPECIAL.

A starter? As a "pop-up"? It has to be special. It is STARTER SPECIAL is a completely unique product. Here's why:

— Physical Uniformity STARTER SPECIAL pellets are made to the same shape and density for maximum consistency and control in application.

— Chemical Uniformity Each and every STARTER SPECIAL pellet has all three primary nutrients — nitrogen, phosphorus, potassium — chemically homogenized in precisely the most desirable ratio 13-34-10. The nutrients can't separate or segregate during handling as with troublesome, hard-to-regulate "dry blends."

— Double Duty Nutrients STARTER SPECIAL has both quick-acting and long-lasting nitrogen and phosphorus for thorough plant feeding. There is no urea or diammonium phosphate that might endanger the seed through liberation of free ammonia.

Of course, these features also make it highly effective as a banded starter. But, with only slight adaptation of most planters, it can be applied directly with the seed in exacting measurement for safety and maximum response.

With this kind of control, you apply much less material — only 1/3 the amount needed for banding. And the reduced material handling could cut your planting time in half!

So, save time, trouble, and money at planting time. See us soon about applying STARTER SPECIAL this spring as a "dry pop-up".
