IT'S TOUGH

TO OUT-FARM OUR ONE-EIGHTY

THAT'S a real bold statement...but we've seen proof of it many times. Every time we take the One-Eighty out for a field demonstration, the reaction is always the same: "Never saw a tractor that handled so easily... Sure moves out with a 4-bottom plow for only 64 horsepower*."

The easy handling of the One-Eighty comes from its XT-inspired features... power steering, power clutch, double-action brakes, and three-circuit live hydraulic system. Its smooth power comes from a 6-cylinder diesel or gasoline engine... plus the exclusive *Traction Booster* system that applies power when and where you need it. Pretty hard to out-farm features like these. Going Orange is Going Great!

The Satisfaction That Comes From Doing A Good Job Of Farming

It's a great feeling to know that you are the master of your farmlands... that when you treat your soil right, it will treat you right. Liming is one of the most important factors in keeping your soil in the highest productive range. A good pasture with a pH of 6.5 or higher, for example, will make 300 to 400 lbs. of beef per acre and produce up to \$100 gross income per acre. This means with the help of lime, profits from pastures can compare favorably with feed or grain crops.

Command Performance

New Van Dale "1230 Series II" Silo Unloader Customer-Certified to outperform, outlast any make its size.

You're in command. Push the button. Now watch the new Van Dale "1230 Series II" Silo Unloader go into action—give you extra output, feed more head—without a booster or added electricity.

Our say so? No, our customers testify the "1230 Series II" is better three ways:

1. handles meaner haylage
2. throws out of larger silo
3. unloads on lower current draw

So, demand **Command Performance**—the new Customer-certified Van Dale "1230 Series II."
