Pa. Soil Map Is Available

Locations and descriptions of 153 soil groups in Pennsylvania are available at an educational, non-profit cost of \$3 in the Land Resources Map of the Commonwealth, published by the Agricultural Experiment Station at Pennsylvania State University

Presenting land resources in graphic form, the map is unlike anything published previously for Pennsylvania. It brings together factor of soil depth, drainage, available moisture, and productive capacities of soils

The map has already been used widely by industrial and community planners. High school and college teachers find it helpful in studying earth sciences, soil scientists at Penn State report. It was developed by Howard W. Higbee, professor emeritus of soil science, who considers it vital for soil and water resource managers

Multiple patterns and colors are used to portray the 150 soil groups—coded and symbolized for identification. Each soil or group is evaluated by 16 characteristics. The more important characteristics are depth, soil drainage environment, geological source of soil material, available moisture, plant rooting zones, and dominant crop production

Copies are available for the \$3, plus 18 cents state sales tax, from Land Resources Map, Box 6000, University Park, Pa. 16802. Make check or money payable to Pennsylvania State University. The map may also be purchased directly in room 202 of Aimsby Building on the University Park campus

MR. CORN GROWER

Your Trojan Dealer Wants To Ask You
Some Questions

Which seed corn company has the largest supply of northern produced seed?

TROJAN

What's the only major seed corn company that didn't jack up its seed corn prices . . . even on normal cytoplasm seed?

TROJAN

Which seed company is guaranteeing 95% germination, or better, on 97% of all seed sold?

TROJAN

Which company is staying away from F2 or second generation seed, flint-corn seed, foreign produced seed . . . because it knows that none of these seeds can match the overall performance of top quality, hybrid seed?

TROJAN

What major seed corn company isn't selling blended seed because it doesn't have to mix seed to restore fertility, jack up germination, or sell outdated hybrids?

TROJAN

Pretty good reasons for contacting your Trojan dealer, don't you think?

YOU BET!
