

# Asparagus Is 'Favorite Recipe' Topic This Week

(Continued from Page 13) and nuts and beat well. Turn into 13x9x2 pan that has been greased and floured. Bake at 325° for 40 minutes. Serve warm topped with whipped cream. Will serve 12.

### Send Bread Recipes

For a change of pace, we are asking for recipes involving a broad range of breads and rolls. This can include your favorite recipe for homemade bread, biscuits, buns, muffins, corn bread. We know that home cooking of these items is still very popular with large numbers of our

readers. The mass produced items we can readily get at the store are not the same thing that grandma made or that her daughters and granddaughters are still making.

### Send Bread-Making Tips

We also know that over the years many homemakers have picked up, either through experience or through tips from other homemakers, some good insight into the little things that are necessary to come up with a tasty, light bread or roll. We think many women would like to share some of these tips on how

to be successful with bread and rolls.

In particular, we understand that many homemakers run into problems in the use of yeasts

Any tips on experiences with these problems and how they are overcome would, we think, be appreciated by other homemakers. So, in addition to your recipes, please send those tips

We will send a potholder to those who send either a bread or roll recipe, or tip for successful making of bread and rolls

Send your recipe, or tip right away to Lancaster Farming Recipes, P. O. Box 266, Lititz, Pa 17543.

Please include your name and address. Please send the name as you would like it to appear in our "Favorite Recipes" column.

The bread and roll recipes will appear in our May 8 issue. Looking ahead, we will be asking for strawberry recipes for our May 22 "Favorite Recipes" column to coincide with the period when local strawberries will begin to come on the market.

We have received several comments from homemakers who have been enjoying the column for the past several issues in which it appeared. We wish to thank the many homemakers who have cooperated

with us in making the column successful and hope we can continue to get this support

## FARM WOMEN

(Continued from Page 17)

Geist Road, Lancaster, for a follow-up discussion on detergents and a social hour

### Society 29

Twenty members of the Society of Farm Women 29 entertained guests at the Lehman Rest Home, Rheems, with a musical program and singalong. A business meeting was held in the basement of the rest home followed by refreshments served by Mrs. Lehman

During the business portion conducted by Mrs. Dale Hiestand, president, a gift of \$10 was approved for the 4-H girls of Lancaster County Walk-A-Thon on May 8 for the mentally retarded children \$25 was also given to Mr. and Mrs. Donald Ranck, missionaries in Brazil to assist with expenses for the return to this area for the funeral of Mrs. Ranck's father, Mr. Clyde Wivell.

The group made and sold 1,018 hoagies at their sale on April 15. They will supply 55 dozen cookies for the USO on May 1.

The next meeting of the group will be held on May 17 when Richard Canfield, clinical psychologist at Philhaven Hospital, will speak on Motherhood and Rearing Children. The meeting will be held at the Glassbrenner United Methodist Church.

# Sutan<sup>®</sup> + atrazine

Selective Herbicide

## lets your corn grow free

Your corn grows free from all major grasses and weeds. Free from the growth stress that weeds cause. Free to develop strong, vigorous roots that reach down to make maximum use of soil nutrients and moisture. Free from extra cultivations, possible root damage and free of trashy fields at harvest time.

This season, use dependable, economical Sutan plus atrazine on all your corn acreage. Stop the toughest grasses and weeds—nutgrass, wild cane, foxtails, fall panicum, Johnsongrass seedlings, crabgrass, annual morningglory, lambsquarters, pigweed, ragweed, nightshade and others that lower your profits. Mix Sutan plus atrazine in the soil as you prepare your seedbed. There's no need to depend on unpredictable rainfall to move the herbicide into the weed seed zone. Sutan and atrazine will be waiting to control weeds as they sprout. Used as directed, Sutan controls weeds without leaving harmful residues in the soil. Free yourself from work and worry... see us today for your supply of Sutan.
