

Arcadian Liquid.

Best way to plowdown.

Tailor-made to your soil needs. That's one reason Arcadian SLF complete liquid fertilizer is ideal for plowdown. We can mix any N-P-K ratio you want, and add the exact amount of trace elements needed for balanced growing power. When nitrogen only is needed, we provide Golden URAN® and NITRANA® U in both winter and summer grades.

Even, accurate application is assured with Arcadian liquid. It won't segregate, cake or set-up. Produces even stands for consistent maturity. Arcadian liquid sprayed on before plowing completely coats crop residues for faster breakdown into humus.

Liquid saves time and labor. Arcadian liquid is the easiest and fastest fertilizer you can use for plowdown. Pumps and hoses do the work. You also cover the field faster because

there's no need to overlap application patterns with liquid. Count on us and Arcadian liquid for best results from plowdown.

Philip T. Mason of Port Deposit, left, a dairy science senior, holds his Certificate of Achievement, while Dr. Gordon M. Cairns, dean of agriculture, displays perpetual plaque bearing Mason's name as fifth winner of the Outstanding Senior award presented annually by the agriculture alumni chapter of the University of Maryland Alumni Association.

the annual alumni-faculty fellowship night recently in College Park

A town boy with an interest in farming, Mason is president of the agricultural student council at Maryland and was a 1970 summer Extension trainee in Kent county. He is second oldest among the six children of Mr. and Mrs. George P. Mason. His father is an automotive electrician at the Aberdeen Proving Grounds.

AGRICO COMPLETE CROP PROGRAM

SOIL TEST
REQUIRED PLANT FOOD
BLIGHT RESISTANT VARIETY
WEED CONTROL

Plow down AGRICO based on Soil Test.
Use AGRICO Starter Fertilizer.

FOR WEED CONTROL USE AATREX

Pre-plant Post-emerge
Pre-emerge with oil
