

## FRESH FEEDS

### LIKE FEEDING YOUR HOGS AND CATTLE NEXT TO THE MILL!

Almost like having your own private mill right on the farm. For we aim to have our feed delivered to the farm and in the feeders within mere hours after it is made. We do all the work. Pelleted feeds, too. With all the fresh flavor locked in. Pellets that feed down easy in the feeders, that keep feed from blowing away, that hold down feed waste. Fresh pelleted complete feeds. There is a difference. Try us and see.

## NEW INTERNATIONAL 990 MOWER CONDITIONER

Greater capacity...  
Operates with less power...  
Requires less adjustment...  
than any other mower conditioner

Operate in heavy hay or sudax a gear faster. Full-width conditioning rolls eliminate dead spots that waste power. And you'll find there's no power loss due to side draft on hillsides or on the level.

You get increased capacity because larger diameter 44-inch reel is less affected by changing crop conditions. And, the unique position of the reel bats holds the crop flat so it feeds through the conditioning rolls, without hesitation. What's more, controlled platform float and self-compensating roll pressure lets you move from field to field, crop to crop and rarely ever readjust the 990.

## Area FFA Public Speaking, Procedure Contests Held

The area FFA public speaking and parliamentary procedure contests were held at Solanco High School Tuesday night.

Grassland FFA Chapter of New Holland placed first in parliamentary procedure, beating out three other teams.

Winning in public speaking was Marvin Caskey Jr of Pequea Valley FFA Chapter and Ray Martin, Grassland Chapter.

Both Caskey and Martin and the Grassland parliamentary procedure team will compete for regional honors at Millersville State College May 11. The region includes 12 southeastern Pennsylvania counties.

Caskey spoke on "Needed — Aid to Our Wildlife" and Martin spoke on "The Mechanical Monster."

Martin had placed first in the county contest April 7 and Caskey second, but the positions were reversed in the area contest, which included six contestants.

Competing with Lancaster County in the area contest were FFA members and teams from Chester County.

Members of the winning parliamentary procedure team were: Delmar Weaver, president; Michael Martin, vice president; Lynn Groff, secretary; James Zimmerman, treasurer; Lamar

Long, reporter; Gregg Martin, sentinel; Kenneth Burkhart, chaplain, and Rick Kochel, student advisor. Clifford Day was team instructor.

Following Grassland in parliamentary procedure in order of placing were teams from Solanco, Oxford and Owen J. Roberts

Following the winners in public speaking were: Adolph Bensingher of Solanco; Charles Graydus, Owen J. Roberts; Howard Stoltzfus, Owen J. Roberts, and Gregg Losey, Octorara Chapter

Judges for the parliamentary procedure contest were: G. Russell Drumm, area landscaper, and William Counts, assistant Lancaster County superintendent of Schools.

## Willow Street Lions Schedule Third Cleanup

The Willow Street Lions Club will sponsor its third annual cleanup of the Community's highways and bi-ways on May 1, according to Donald E. Lenig, club president.

This year's drive, "The Big Sweep," involves all segments of the community including schools, churches, Scouts, commercial establishments, and other service organizations.

In each of the previous years, approximately 35 miles of Township roads were covered by the cleanup crews, and eight pickup truck loads of eyesore-litter were removed to the county landfill.

Judges for public speaking were: Stanley Musselman, farm representative for National Central Bank and Robert Gregory, Pennfield Corp. salesman.

## "CHIK-EZE"

Hinged bottom model Chik-Eze includes egg tray which can be put into use at 10 weeks.

This feature will actually permit birds to be kept in the start/grow cage at full laying age if necessary. It also eliminates problems of egg gathering and egg breakage if circumstances delay movement of pullets to grow/lay or permanent lay cages, and it takes care of eggs from birds that lay prematurely. The lowered floor provides a 2 inch gap for eggs to roll out onto tray.

### THE ALL NEW FLAT DECK CHIK-EZE PULLET REARING CAGE

... offers durability, economy, performance and practical labor saving features that increase management efficiency. The heart of the system is the Big Dutchman chain and trough feeder providing 96 inches of feeding space per cage. There is full availability of all the feed to all the birds. All feed is automatically recirculated and remixed, resulting in better feed consumption.

Extra feed capacity makes high density of birds per cage low practical and manageable.
