

## 24 Lancaster County Delegates To Attend 12th Club Congress

The 12th Pennsylvania 4-H Club Congress with the theme of "Serving and Caring" will be held from June 21-24 at Pennsylvania State University.

There will be 24 Lancaster County 4-H delegates taking part in the four days of activity.

The 4-H Congress is designed to develop an appreciation of service to the family, the community, and the world.

The two keynote speakers will be U.S. Senator Richard Schweiker and Father Bernard Petrina. Also taking part in the program will be Carl Dossin Jr., Vista and former IFYE volunteers, and James Rohrbaugh (theatrical arts graduate of St. Olaf College).

The delegates will contribute ideas in assemblies, discussion and interest groups to share with others at home. Other activities include swimming, tennis, basketball, softball, and tour of campus.

### Club Asks More Bakers

If you are 11 or 12 and would like to learn to cook, join the Mount Joy Busy Bakers, our first meeting is June 21. All our meetings are on Monday.

So far we have 25 members. We meet at St. Marks United Methodist Church on Main Street in Mount Joy. Meetings are from 9 a.m. until 11 a.m. If you are interested, come and see or call.

Mrs. Arthur Sweigart, Box 307, Mount Joy RD1, Phone 653-1505, Mrs. J. Clarence Geider, Box 397, Mount Joy RD1, Phone

Victor Longenecker, 4-H Leader, and Joan Lucas, assistant Extension home economist, will be accompanying the 4-H'ers on their four-day adventure.

They Look New; They Are New!

**NEW BUTLER GRAIN BINS**

The new Butler grain bin—with wider body sheets, a broader corrugation and fewer parts—provides real savings and faster, easier erection. Other high performance improvements include a steeper roof for more grain storage capacity; a new floor—a stronger, clear-punched floor which installs quickly; a new step-in door with corrugated frame, located above ground; and many more. See us today for details on the new Butler bin.

## DIFOLATAN® 4 FLOWABLE

The leading flowable fungicide made to fight potato blight.

DIFOLATAN gives excellent protection against both early and late blight. And is particularly effective against tuber rot.

DIFOLATAN sticks to the plant, resists weathering from rain or sprinkle irrigation. That means you can maintain your schedule without worrying about the effects of weather or irrigation.

Protection against tuber rot is outstanding. When you put potatoes in storage, you'll never know how well you did in the blight fight until you've shipped the last of them. Fields may look reasonably healthy before harvest, but if you put infected tubers into storage, you can find yourself with a costly, heavy cull out of late blight tuber rot infection.

DIFOLATAN works to give you greater yields of healthy potatoes. And—because it's flowable—it does that even better.

Another good thing about the fastest selling potato fungicide. It works on cucumbers, melons, and tomatoes, too.
