Tone — Large whites generally cleared in the South Slow in Northeast and East North Central states Extra large and jumbos tight. mediums and pullets ample to surplus.

### Delmarva

Wednesday, June 23

Ready-to-cook movement mixed ranging fair to occasionally good. Advance interest good with occasional unfilled needs reported from regular shippers. Less than trucklot prices ranged unchanged to ½ cent higher on both Plant Grade and U S Grade A. Early negotiations noted on loads for next week at one cent above this week's levels. Live supplies adequate though weights often lighter than desired due partially to slowed growth because of hot weather of past several days. Undertone firm.

Negotiated trucklot prices 2-3 pound ready-to-cook broilers and fryers for delivery next week:

U S. Grade A 31

Plant Grade 30 30½

Pool trucklot prices for Thursday arrival in the New York area

U S Grade A 30-32 mostly 30½-31

Plant Grade 29-30½ mostly 29½

Special packs including 1¼-2, 3½ pound sizes TFEWR

### New York Eggs

Wednesday, June 23

Prices steady on large, unchanged to fractionally lower on mediums Local distributors stocks of fancy large are no more than adequate, standards and other quality graded large ample, mediums and smalls ample under a light buying interest Receipts light to moderate with extra large slightly more

### Eastern Pa. and N. J.

Wednesday, June 23

Prices unchanged from last week. Offerings of light type hens fully adequate for continuing light plant demand. Most plants working part-time in line with limited demand for finished product. Offerings of heavy type hens adequate for a seasonally good demand.

Prices paid at farm. Light type hens 4½-6½ mostly 6¼-6½ in Pennsylvania mostly 5-5½ in New Jersey Heavy type hens too few to report prices.

## Mennonite Religious Service Set

The Dean of Eastern Mennonite Seminary in Harrisonburg, Va, visited the Lancaster area this week to examine a farm site that will be the setting for a Mennonite Religious Service each night July 3 to 18 at 7 30 p m

George R Brunk, B D, T H M, T H D, who is also professor of theology at EMS, has planned to set up his Brunk Revival Inc tent on the farm of Mr and Mrs Roy Book and family, Ronks RD1

The site is located along Route 896 just south of Route 30 The tent will be erected July 1

"We are encouraging the many out of state visitors to the area to visit with the local Mennonite people in a religious service," Brunk said

"We are expecting many local Mennonites to attend and the tourists are our guests"

Brunk flew his single engine plane into Glick's Plant Farm

readily available and about adequate locally Country points offerings of large increasing slightly at unchanged price levels, offerings of mediums readily available. Local demand just fair on large and extra large for small lot sales Cartoning activity unaggressive with some inquiry developing on mediums.

airstrip at Smoketown Tuesday morning. He said local people and organizations serving the tourists will be provided with brochures announcing the event Following the nightly service "The Mennonite Story," a 22 minute colored film showing Mennonite customs and backgrounds will be shown

The Mennonite Information Center, Lincoln Highway East, is cooperating in this project.

## DIFOLATAN® 4 FLOWABLE

The leading flowable fungicide made to fight potato blight.

DIFOLATAN gives excellent protection against both early and late blight. And is particularly effective against tuber rot.

DIFOLATAN sticks to the plant, resists weathering from rain or sprinkle irrigation. That means you can maintain your schedule without worrying about the effects of weather or irrigation.

Protection against tuber rot is outstanding. When you put potatoes in storage, you'll never know how well you did in the blight fight until you've shipped the last of them. Fields may look reasonably healthy before harvest, but if you put infected tubers into storage, you can find yourself with a costly, heavy cull out of late blight tuber rot infection.

DIFOLATAN works to give you greater yields of healthy potatoes. And—because it's flowable—it does that even better.

Another good thing about the fastest selling potato fungicide. It works on cucumbers, melons, and tomatoes, too.

Chevron Chemical Company, Ortho Division, San Francisco, California 94120, Helping the World Grow Better®.
