

Barnes Is Wayne Plant Manager

Robert H. Barnes has been named plant manager at Allied Mills' recently completed Lancaster feed manufacturing plant, according to Donald L. Staheli, vice president and general manager of Wayne Feeds Eastern Division.

In his new post Barnes will have responsibility for complete operation of the plant.

Barnes has been with Allied Mills since 1950, starting with the company as manager of the experimental feed mill located at the company's research center at Libertyville, Ill., and serving successively in the company's alfalfa dehydrating operations, and as plant manager at Allied's Gainesville and Memphis plants.

Barnes is a graduate of Purdue University at West Lafayette, Ind., from which he holds the Bachelor of Science degree in agriculture and animal husbandry. He is a veteran of the United States Coast Guard and is

Pennmarva Has Young Cooperator Program

Pennmarva Dairymen's Co-operative Federation held its first Young Cooperator Program at the Hunt Valley Inn, Cockeysville, Md., June 24.

Winning the titles of Outstanding Young Cooperators were Mr. and Mrs. Benjamin E. Dum, Elliottsburg, Pa., Inter-State Milk Producers' Cooperative; Mr. and Mrs. Leroy R. Bupp, Seven Valleys, Pa., Maryland Cooperative Milk Producers, and Mr. and Mrs. Frank C. Downey, Williamsport, Md., Maryland and Virginia Milk Producers Association.

Placing second to Mr. and Mrs. Dum in the Inter-State

Grain Association, Georgia Feed Association, and is an active leader in the Boy Scouts of America and the American Legion. He will reside with his wife and two children at Lancaster.

The new plant, on which construction has begun last fall, is designed to serve feed dealers and livestock producers in the eastern portion of Pennsylvania, eastern Maryland, and parts of New York, New Jersey, Delaware, and Virginia.

For several years Allied Mills has operated a warehouse, bulk station, and office facilities at the five-acre construction site located by Bypass U.S. 30 and the Penn Central tracks. The new mill will produce the full line of bulk and bagged Wayne livestock and poultry feeds, and features the most modern facilities and equipment available in the feed industry, according to company officials.

OYC contest were Mr. and Mrs. Lester C. Jones Jr, Mt. Holly, N.J., with Mr. and Mrs. P. Robert Wenger, Quarryville, third.

The other three finalists were Melvin R. Eby, Gordonville; Dale W. Hoover, Martinsburg, Pa., and Donald M. Meyers, Kempton, Pa. A total of 19 contestants participated in the competition.

The contestants from Inter-State were: Donald M. Meyers,

Kempton, District 1; Lester C. Jones Jr, Mt. Holly, N.J., District 2; P. Robert Wenger, Quarryville, District 3; Clifford L. Higgs, Henderson, Md., District 5.

Melvin R. Eby, Gordonville, District 6; James F. Brubaker, Mount Joy, District 7; Owain D. Gruwell, Felton, Del., District 9; Samuel L. Orr, Rising Sun, Md., District 10.

John W. Lynn, Hesston, Pa., District 13; E. Richard Hoopes Jr, West Grove, Pa., District 15; Benjamin E. Dum, Elliottsburg, Pa., District 16; Charles R. Pecht, Milroy, Pa., District 18; Joseph W. Smith, Millington, Md., District 19; Dale W. Hoover, Martinsburg, Pa., District 20.

Robert W. Bechtel, New Enterprise, Pa., District 21; E. Owen Pool, Mickleton, N.J., District 23; Marvin E. Brown, Littlestown, Pa., District 24; and David L. Robinson, Waynesboro, Pa., District 26.

Vaccinate Poultry Before Exhibiting

Poultry owners should vaccinate their flocks at least 30 days before exhibiting their birds at shows. And, any poultry exhibited at a show should not be returned to the flock of origin without first isolating them for two weeks.

That is the advice of Bonnard L. Moseley, University of Missouri-Columbia Extension veterinarian.

Infectious bronchitis is one disease that can be brought into a flock via the show circuit route, unless proper precautions are taken, says Moseley.

Another is the highly virulent Newcastle disease. It has been confirmed during the past several months in New York, Texas, and New Mexico. A possible case of the disease in Florida is being investigated.

During the past winter there have been several outbreaks of Laryngotracheitis in eastern states. Most cases were in commercial pullet-egg laying houses. However, there were a few cases in exhibition flocks.

Call Us Now

To serve the Lancaster County farm community better, we maintain two phone numbers. Our main number is 394-3047. But our subscribers and advertisers can also reach us through 626-2191 (ask for Lancaster Farming) and avoid a toll call from the Akron, Ephrata and Manheim exchanges.

Get MORE Meat/Milk/Egg Dollars From YOUR Grain

Your grain is great as an energy source, but weak and inconsistent in protein (amino acids), minerals and vitamins needed for really money-making production.

But blend your grain with WAYNE research-proved supplements . . . according to our customized WAYNE-MIX formulas and . . . PRESTO you have high-powered, nutritionally complete rations. Your return is many MORE meat, milk or egg dollars than from unfortified grain.

Get MORE for YOUR grain. Ask us about Wayne-Mix today.

As an authorized Wayne-Mix Dealer, we can build for you dependable quality rations at less cost . . . fitted to your specific need!

Feed for the difference innovations make. Feed Wayne.
