

Spice CABINET

BARBECUE SAUCE

- 1 cup catsup
- 1 cup salad oil
- 1 cup vinegar
- 1 tbsp. dry mustard
- 1 tbsp. honey
- 1 tbsp. chili powder
- 1 tbsp. Worcestershire sauce
- 1 tsp. crushed red peppers

Combine all ingredients in a deep saucepan and simmer for 20 to 30 minutes. This is a hot sauce, so go easy with the pepper at first—you can always add more. Use to baste barbecue ribs, beef, chicken, etc., on grill.

3 County Drivers Win Tractor Pull

Three Lancaster County tractor drivers won all three stock classes at the Keystone State Tractor Pull last Saturday night at Hughesville, Lycoming County.

The winners are: Nelson Sangrey, Christiana RD1, 7,000 pound class; Ivan Yost, Christiana RD1, 9,000 pound class, and C. B. Hooper Jr, Intercourse, 12,000 pound class.

The Keystone Pull is the largest in Pennsylvania with a \$3,600 purse. Winners received cash prizes and trophies. Nearly 60 tractors competed.

Next pull scheduled in Lancaster County will be September 18 at Rough and Tumble Museum, Kinzer.

Why He Shows His Dairy Animals

(Continued from Page 1) mals in competition last week weren't clipped properly, even though he knows that their parents know how to do it. He thinks it's their duty to see that a cow is clipped right and help their children make the best showing possible.

He believes that animals which win in shows sell for higher prices.

Does showmanship have anything to do with determining winners? Frey feels that showing and fitting are important. While he does not feel that showing and fitting can compensate for a poor animal, he does believe that when it's a toss-up between two animals,

the better shown and fitted animal wins.

"In a big national show, there may be very little difference between the top six or the top two or three animals. Different judges may even disagree. I feel the guy who presents his animal best to the judge often wins."

Frey believes that an important part of showing is a full awareness of the animal's strengths and weaknesses and traits. By controlling the animal's position through leading and occasionally nudging and pinching at the right time and place, the knowledgeable showman can make the animal look her best.

He noted, for instance, that a seemingly unimportant thing such as the position of the cow's legs when she is standing can influence the appearance of the udders. By knowing the quality of the udders and proper positioning of the legs, the showman can make the best appearance possible.

In relation to the udder, Frey believes that one of the biggest mistakes most showmen make

is what he calls "over bagging." A cow milking 90 pounds of milk a day may have the appearance of bulging when the udder is full, Frey explained.

Instead of leaving 12 hours of milk in the udder, a better appearance may be obtained with 10 hours. He noted that he showed Ginger as reserve champion All-American at only eight hours of milk.

He said he picked this tip up from showmen at some of the big national shows.

He also emphasized that the way the animal is cleaned is very, very important.

In getting ready for the Black and White Show, all Fultonway show animals were brought to the barn four to six weeks before the show. They were given light amounts of grain and some beet pulp and good roughage. They were washed and clipped the day before the show.

Frey doesn't blanket his animals anymore. He doesn't think this should be done in 90 degree heat and doesn't feel it is necessary in the summer to get the hair positioned right.

Pa. Florists' Convention Set Here

The annual Pennsylvania Florists' Convention will be held at the Hilton Inn, Lancaster August 29-31.

Kenneth Fries, Lancaster florist, is the general chairman (phone 394-6817).

Growers, retailers and allied tradesmen will attend a communications workshop under the direction of two Penn State professors, David E. Butt and A. Jackson McCormack, Penn State University Speech Department. The workshop will emphasize the importance of "getting through to people" such as suppliers, competitors, bankers, customers, employees, family workers, and fellow trades people.

Jay Anyon, University of

Pennsylvania School of Business, will speak on business management.

Everett Conklin, internationally known for interior plantings, will speak.

There will also be separate sessions for retailers and growers on issues such as design school, trade show, retailers school, and a growers symposium, including production management, cost accounting, and poinsettia and lily production.

There will be tours of local greenhouses and shops, plus a ladies program. A complete program, details and early registration, can be obtained by contacting Harold Steffy, 224 Maple Ave., Bird-in-Hand, Pa. 17505.

County 4-H Dress Revue

(Continued from Page 1) and Home Center. Winners from 13 counties will be competing.

Including girls, parents and interested citizens, about 250 persons attended the county event Thursday.

Judges were: Mrs. Judy Bowlby, graduate of Albright College, who will be teaching home economics this fall at Manheim Township High School; Mrs. Jean Prysbylowski, Drexel

University graduate, teaching clothing at McCaskey High School, and Mrs. Barbara York, part-time teacher at Lincoln Junior High School and clothing instructor for the Pennsylvania State Cooperative Extension Service.

Among those assisting with the program were: Mrs. Doris Thomas, County Extension home economist, and Miss Joan Lucas, assistant Extension home economist.

AGWAY

You're invited to a **FREE WELDING CLINIC!**

Here's a rare opportunity . . . a chance for farmers and others to learn how to save valuable time and money by doing their own welding.

With improved new Twentieth Century equipment, it's easy. We'll demonstrate it. Then we'll let you try your hand. You'll see how easily you can do a multitude of repair jobs with a versatile new Twentieth Century heavy-duty welder. Remember, it's the handy, low-cost welder with these 8 exclusive features . . .

- 1 Three welders in one.
- 2 A new 400 AMP cutting ground for faster and cleaner cutting, piercing and gouging.
- 3 Overhead and vertical welding easy as flat welding. Saves time.
- 4 Spot welding without attachments, with settings built in, for faster, stronger welds.
- 5 Soldering, also without attachments, with settings built in, for faster soldering without surface preparation.
- 6 Heavier construction — more copper and sturdier electrical steel protect against voltage loss, let you weld better, strike and hold an arc easier.
- 7 You get a "continuous welding" service guarantee — five years on parts, labor and repairs; twenty years on labor and repairs.
- 8 Battery charging with an inexpensive attachment for fast and slow charging of 6, 8, 12 and 24 volt batteries.

WE'LL TAKE YOUR PRESENT WELDER IN TRADE!

TUESDAY, AUGUST 10th

FREE COFFEE AND DOUGHNUTS FROM 7:30 TO 9:30

**BEE-LINE
SUPPLY CENTER**

1027 Dillerville Road, Lancaster

24 Hour Service Daily — Ph: 717-397-4761

SPREAD ANY MANURE

...liquids to frozen solids

STARLINE

ROTASPREADER

Powerful chain-flail action of the Starline Rotaspreader shreds and spreads any type manure in broad, even swaths up to 20-feet wide. Simple construction reduces maintenance. "Seal-of-Quality" galvanized steel body resists corrosion. Separate chassis hauls heaviest loads. See us soon for full details and a demonstration.
