Stars' Colors

Their colors are indications of star temperatures and also tell which of the elements make up the stars. As a rule, the blue and the white stars are the hottest, while the red ones are the cooler stars.

It's a Rule

The U.S. Constitution prohibits either house of Congress from adjourning more than three days—not counting Sundays—without the consent of the other.

**Give Your Calves
a Head Start!**

Add months to the productive life of your dairy herd with fast-growing calves that mature and freshen earlier. Feed Wayne Calfnip, the medicated milk replacer that *outperforms* milk. Sell the milk you save at today's higher prices. Young calves *can't* use the cereal in cheaper, cereal-filled milk replacers. Gains are much less. Scours can be 37% more frequent. Calfnip contains aureomycin, not one *smidgeon* of cereal filler. It's 95% milk products and high quality *animal* fats. Mixes easy. *Stays* mixed. Highly nutritious. Puts fat *in* the calf without leaving greasy film on your feed equipment!

Feed for the difference innovations make. Feed Wayne.
