**Keep Milk Lines Full and Flowing...**

What your cows need to keep milk lines full and flowing Wayne Dairy Supplement. It keeps costs down, performance up. New Wayne 42% Dairy, preferred 2 to 1 over the old formula in palatability tests, contains urea that lets rumen bacteria manufacture more of their own protein, saving you feed dollars. Wayne 32% Dairy is a non-urea, all-vegetable protein supplement for farm grains. Both contain a blend of popular dairy feed proteins, vitamins, minerals and molasses that outperforms soybean, cottonseed or linseed meals and brewers' or distillers' dried grains fed individually.

Feed for the difference innovations make. Feed Wayne.
