Mount Joy, Pa. Phone 653-1312

Two Manheim Central FFA Chapter members show the chapter's first place window exhibit at the Manheim Fair this week. The two are Donald Wenger, left, and John Miller. The demonstration shows that tractors and machinery cause 42 per cent

of farm deaths and recommends four things to do to reduce these deaths: shut off PTO before dismounting, keep all shields in place, don't wear loose clothing, and forbid riders.

EPA Announces Deputy
 Edward W. Furia Jr., Regional Administrator for the Environmental Protection Agency's Region III announced recently the appointment of Richard P. Nalesnik as the Deputy Regional Administrator.

Nalesnik, currently director of EPA's National Water Quality Standards Program in Washington, D.C., will assume his duties at Region III's headquarters in Philadelphia in November.

Horticulture Show Set

A leisurely trip around the world can be enjoyed free by attending the annual Horticulture Show October 23 and 24 at Pennsylvania State University. Among the features will be an Oriental garden, an open-air market of the Caribbean, and a formal garden of Europe.

"The World of Horticulture," this year's theme, will include a desert scene from the southwestern United States and a hut on a tropical island.

To be held in the Ice Pavilion at University Park, the show is sponsored by students in the Horticulture Club. Held traditionally during Homecoming Weekend, the hours will be from 10 a.m. to 8 p.m. on October 23 and from 10 a.m. to 6 p.m. on October 24. Admission is free.

"The World of Horticulture" will give a birds-eye view of the many and varied ways horticultural plants are used in foreign countries and in the United States. The origin of these plants will also be stressed in this year's show.

New and unusual plant materials will be on sale. Regular items will include cider, fresh apples, corsages, Indian corn, and hardy chrysanthemums. Plants used in the exhibits will be sold at 5 p.m. October 24.

THERE'S A LITTLE PART OF VAN DALE IN EVERY UNLOADER...

BUT STILL ONLY ONE THAT'S GOT IT ALL TOGETHER.

In 1950, we introduced the most efficient silo unloader to the market. Simple, but efficient.

We've changed during the last 21 years. Added self-cleaning, wide throat impellers for tough to handle haylage. Dual, no-plug augers for smooth silage movement. Dependable, weather-sealed electrical systems to prevent failures. And numerous other performance-features "firsts."

If you look around, you'll find a little part of VAN DALE in just about every unloader...

But only Van Dale sells it all together.

MODEL 1020 F 10-16 Ft. Diameter Silos—delivery to 15 tons/hr.

MODEL 1230 12-30 Ft. Diameter Silos—delivery to 25 tons/hr.

INDUSTRIAL Up to 40 Ft. Diameter Silos—delivery to 40 tons/hr.

VAN DALE

Box 337, Long Lake, Minnesota
