

Daniel Weinstock Has Top Goats at Chester County 4-H Show

Daniel Weinstock, son of Dr. and Mrs. Joseph Weinstock, Phoenixville, received top honors at the Chester County 4-H Goat Show recently at the Kimberton Fire Company Grounds.

Dan was named grand champion fitter and showman while exhibiting the champion and reserve grand champion goats for the show.

His sister, Rachel, was named reserve champion showman, while Richard Stoneback, Oxford, was named reserve champion fitter for the show.

Results for the fitting class, based on members' ability to prepare goats for show, were: blue ribbons for superior ability were presented to Matthew Burrell, Wallingford; Jonathan, Daniel, David, Sarah and Rachel Weinstock, and Alison and Holly Scheib, Phoenixville; Josephine and Alexandria Watson, West Chester; Audra Spotts, Honey Brook; Paul and Thomas Dzugan, Elverson; and Peggy, Richard and Randy Stoneback.

In the showmanship class based on members' ability to present the animal to the judge, blue ribbons designating a superior work were presented to

Matthew Burrell, Jonathan, Daniel, David, Sarah, and Rachel Weinstock, Holly and Alison Scheib, Paul and Thomas Dzugan, Richard, Randy, Peggy Stoneback, Alexandra Watson and Audra Spotts and Red ribbons for excellent work were presented to Josephine Watson and Maria Zulick.

In the Junior Kid class blue ribbons for superior quality animal were presented to Jonathan and David Weinstock and Alison and Holly Scheib

In the senior kid class blue ribbons were presented to Matthew Burrell, Sarah and Rachel Weinstock, Richard and Randy Stoneback, and Audra Spotts and red ribbons were awarded to Peggy Stoneback and Josephine Watson.

In the yearling class a blue ribbon was presented to Rachel Weinstock.

In the first lactation class blue ribbons were awarded to Daniel and Sarah Weinstock, Thomas Dzugan and Richard and Randy Stoneback and red ribbons were presented to Richard Stoneback and Paul Dzugan.

In the second lactation class blue ribbons were presented to

The top winners at the Chester County 4-H Goat Show are: left to right, Daniel and Rachel Weinstock, Phoenixville, and Richard Stoneback, Oxford. Dan was the grand champion showman and fitter while

exhibiting both the grand and reserve champion goats for the show. Rachel was the reserve champion showman with Richard as the reserve champion fitter.

Alexandra Watson and Rachel Weinstock.

In the aged class blue ribbons were presented to Daniel Weinstock and Holly Scheib.

The judge for the show was

Mrs. Jean Van Voorhees, a 4-H Goat Club Leader from Glen Gardner, New Jersey

The Chester County 4-H Goat Show is just one activity of the Chester County 4-H Goat Club. Members of the club receive instruction from Mrs. Margaret

Jacob and Dr. Nancy Riser, volunteer adult leaders who donate their time to this youth activity. Further information about this 4-H program may be secured from these leaders or by contacting the Cooperative Extension Service office in the Chester County Courthouse.

Be sure you apply enough

The new higher-powered fertilizers often require more lime each application to maintain a neutral soil that tests to pH7.

Grains Can Replace Corn in Swine Ration

If the price is favorable, barley, grain sorghums and wheat can replace part or all of the corn used in swine rations, says Max Smith, Lancaster County ag agent.

Swine can be raised on a wide range of feed profitably, as long as the ration is balanced. Oats can also be used to replace up to 25 per cent of the corn in market-hog rations and up to 50 per cent of the corn in brood sow rations. All small grains, however, must be ground to obtain maximum

feed value.

Wheat and barley are the most valuable small grains used in swine rations. And many farmers have just finished harvesting these crops, providing a good supply of grain for feed.

Barley is 86 per cent as valuable as corn, when used in swine rations. A higher fiber content accounts for the slightly lower feed value.

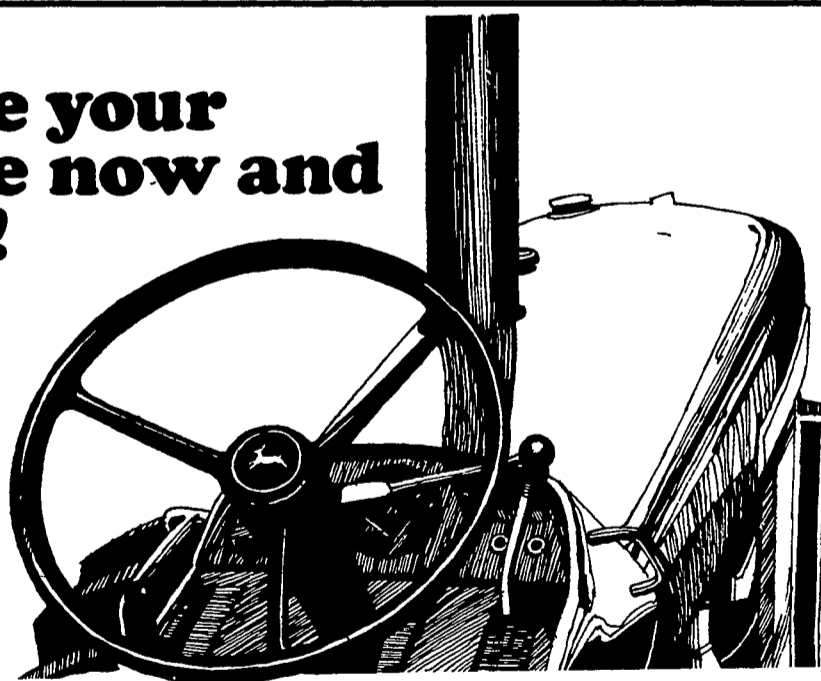

The feed value of wheat in swine rations is nearly the same as corn.

Higher in protein content than barley, wheat is only three per cent fiber.

One disadvantage of using wheat in swine feed is that it tends to stick together and becomes "gummy" when finely ground. For best results, producers should use a corn-wheat mixture. A 1:1 or 1:2 (corn to wheat) ratio is recommended.

Although the fiber content is a little too high for small pigs, barley is a good feed for pigs weighing over 50 pounds.

Make your move now and save!

Drive a new or used John Deere Tractor all fall and winter... no finance charges until March 1, 1972

We've sharpened our pencils, and our terms are better, too. Effective immediately — no finance charges until March 1, 1972 on the tractor of your choice . . . any model, any horsepower size . . . new or used equipment. Get today's prices, today's trade-in allowances. Make your move here . . . right now! Stop in for moneysaving details!

SPREAD ANY MANURE
...liquids to frozen solids

Powerful chain-flail action of the Starline Rotaspreader shreds and spreads any type manure in broad, even swaths up to 20-foot wide. Simple construction reduces maintenance. "Seal-of-Quality" galvanized steel body resists corrosion. Separate chassis hauls heaviest loads. See us soon for full details and a demonstration.
