Eastern Pa. and N. J.

Wednesday, Oct. 20 Prices remained unchanged. Demand fair but generally less aggressive than in past weeks. Offerings increased somewhat as many smaller flocks being moved in a normal yearly routine. Offerings of heavy hens barely adequate for a fair call. Prices paid at farm: Light type hens 41/2-7 mostly 61/2-7 in Pennsylvania mostly 6 in New Jersey. Heavy type hens 12-13.

New York Eggs

Wednesday, Oct. 20

Prices fractionally higher on large. Receipts moderate although increased arrivals anticipated momentarily. Trading stocks moderate on jumbos; excessive on extra large with most street sales now at 331/2 cents. Large continue burdensome with sales of good quality eggs as low as 281/2 cents reported. Mediums adequate with smalls light but adequate. Demand for bulk eggs continue at best, fair, with no buying pressures evidenced on any particular size or color. Carton orders were of a regular nature despite the National Holiday this coming Monday.

medal in poultry judging and his Pennsylvania team received a silver medal for placing 14th out of about 40 state teams, and Glenn Rohrer, a gold medal in dairy showmanship, one of only nine top gold medals awarded in this event.

5 See Billy Graham

Five Lancaster Countians were among 85 persons from all parts of the nation who had lunch with the renowned world evangelist. Dr. Billy Graham, and his entire team at LeTourneau College, Longview, Texas, October 18.

They are: Mr. and Mrs. Alfred L. Douple, 321 E. Second Ave., Lititz; Martin Heisey. Washington Boro, and Mr. and Mrs. J. Lloyd Rohrer, 210 Owl Hill Road, Lititz.

The occasion was the Silver Anniversary of LeTourneau College, of which Dr. Graham is a trustee and where his son, Franklin is is a freshman.

Present at the luncheon were the trustees which include the American Mother of the year, Mrs. R.G. LeTourneau and the college faculty. LeTourneau College is an engineering, technology, and liberal arts college, founded by the famous Christian industrialist and inventor, R.G. LeTourneau.

State Poultry Plants to **Get Federal Inspection**

Poultry plants operating wholly within Pennsylvania will be subject to federal inspection beginning October 31. Approximately 130 plants will be affected.

Officials of the U.S. Department of Agriculture's Consumer and Marketing Service said Pennsylvania officials requested federal inspection last month.

sustain top production with the BABCOCK **B-300**

Keeping production up...costs down...is the profit key in poultry operations. And more and more records on commercial flocks of Babcock B-300's..."The Businessman's Bird"...show sustained production of top quality eggs...often with an additional 20 to 30 eggs per bird housed over other strains. Come in... look at the records and the B-300 "The Businessman's Bird".

The Federal Poultry Products Inspection Act requires, in part, that intrastate poultry plants be federally inspected in states that do not establish an inspection program at least equal to the federal one.

The Act gave the States a deadline of August 18, 1970, to achieve "equal to" status, with provisions for a one-year extension of the deadline if they were making sufficient progress. Pennsylvania was granted such an extension, but state officials told USDA in August they were not in a position to develop the required program before the final deadline.

Federal inspectors have just completed a survey of Pennsylvanis's intrastate poultry plants to determine the nature of their operations and inspection staffing needs. Inspection supervisors have been working with plant operators, explaining the details of inspection and helping them plan changes in plants. facilities and operations necessary to meet Federal requirements.
