

Co. Farmers Assn. Holds Annual Meeting

(Continued from Page 14)

The Milkmaids trio, the Lancaster County organization's talent representatives which recently won the regional contest and will compete in the state contest, provided entertainment.

Max Smith, Lancaster County ag agent, spoke briefly.

The association adopted 16 recommendations for consideration for resolutions for consideration by the Pennsylvania Farmers organization. These resolutions included:

— Farmland be assessed at its

present farm use, as long as it is in agriculture.

— Support a dairy referendum, but oppose the right of the Secretary of Agriculture to veto

recommendations of the Advisory Committee.

— Recommend that harness racing revenue be retained for agricultural research.

— Reduce truck license rates for non-commercial use.

— Additional money for public schools be obtained by raising wage tax instead of real estate tax

— Oppose the teacher tenure law, since teachers now have union representation.

— Keep Senate and General Assembly at the present numbers.

— Support making lists of welfare recipients available to the public.

Other resolutions called for a study of the no-fault insurance proposal, oppose off-track betting; support an agricultural deferment; urge research of silo gas; support Bible reading and prayer in schools, and urge replacing state scholarships with interest-free loans

For Parlors Only

Announcing

Roy Battles, left, of the American Farm Bureau Federation, was speaker at the Lancaster County Farmers Association

meeting. James G. Kreider, local association president, was master of ceremonies.

A Special Dairy Concentrate

Pennfield No. 556 is the right Dairy Concentrate to balance off your present feeding program. It has all the necessary minerals your herd needs to get the most out of your feed. No matter what your feeding program. The high concentration of protein — 40 percent — provides your herd the necessary protein economically. The vitamin E supplement helps overcome marginal selenium levels in natural feed stuffs thus providing the proper nutrient balance for your cattle.

Call today. A Pennfield feeding expert is ready to discuss your feeding needs. He is ready to help you program your herd so that you obtain the best balance between feed, nutrition and profits.
