## New Holland Stables Has Dairy Cow Show

There were a total of 339 cows, 10 heifers and 7 bulls sold at the annual dairy cow show and sale at New Holland Wednesday, October 27.

The grand champion animal, a grade Holstein, was shown and consigned by Norman Kolb and John J. Stoltzfus, Lancaster. Purchased by Alfred Albright, Landisburg, for \$2,000, she had previously won in the fresh Holstein class.

Judge for the event was Dr. John L. McKittrick, Columbus, Ohio.

Rundown of top winners and buyers by class is as follows:

**Fresh Holstein Class** — Kolb and Stoltzfus' grand champion, H. D. Matz, Ephrata, second, bought by Wilmer Hostetter, Oxford RD1, \$1,225; Mel Kolb and Marvin Eshleman, third, bought by William Kepler, Maryland, \$1,500.

**Holstein Dry Class** — Kolb and Stoltzfus, first, bought by Charles Myers, Lancaster, \$3,025; Kolb and Stoltzfus, second, bought by H. D. Matz, Ephrata, \$850; William Lang and Leroy Smucker, New Holland, third, bought by Donald Hershey, Manheim RD2, \$1,050.

**Holstein Heifer Class** — Kolb and Stoltzfus, first, bought by John Glick, Quarryville, \$550, Kolb and Eshelman, second, bought by Norman Kolb, Lancaster, \$535, H. D. Matz, third, bought by Norman Kolb, \$550.

**Mixed Breed** — Dale Hostetter, Annville, registered red and white Holstein, first, bought by John Baumgardner, \$1,175, Walter Rissler, Palmyra, second, bought by Clarence Stoner, Jonestown, \$750, Kolb and Eshelman, third, bought by Albright, \$650.

**Guernsey** — Kolb and Stoltzfus, first, bought by David Byler, 186 Geist Road, Lancaster, \$700, Kolb and Eshelman, second and third, bought by Noah Yoder, McClure, \$400 and \$405.

Thirty-four head of top prize cows averaged \$1,196, with the next 67 head averaging \$984. The majority of the animals consigned were purebred.

Locally consigned cows, mostly fresh, sold for 250 - 510, springing heifers, 210 - 480, bulls, 170 - 380.

## Penn Manor FFA Sets Orange Sale

The Penn Manor FFA is featuring its second annual orange sale. The sale is to raise money for the FFA.

Some of the things the FFA does with its money are the father and son banquet, fishing trip, and a few seniors go out to Kansas City to the FFA Convention.

This year the goal is about 1,300 crates of fruit.

For the first time we are selling grapefruit along with the oranges. The fruit will come

directly from Florida to Penn Manor. The fruit will arrive at the school around the 15th of December.

If you are interested in buying any fruit, the cost is \$5.25 for one crate of oranges, about 100 to 125 oranges in one crate, depending on the size of the oranges, and \$3 for one-half crate of oranges.

For one crate of grapefruit the cost is \$5.50, there are 48 grapefruit in one crate, and \$3.25 for one half crate of grapefruit.

Contact the ag department at Penn Manor. Call 872-5431, or any FFA member.

# THIS AD IS ALL BUNK

### THIS ONE SHAKES

### Van Dale 562 Shaker Feeder

Versatility.

That's the "562." It's a feeder and bunk system all in one. It shakes a uniform feed mixture down the trough, provides its own feed bunk and has guard rails as standard equipment.

The "562" is versatile in operation too. A variable speed drive, powered through a rugged 3 hp motor, allows you to feed fast or slow. The stainless steel trough is self-cleaning and enables you to build a feed bunk from 22 to 102 feet in length. Extends to any length by using a drive unit every 102 feet.

And the unique shaking concept means you can provide an even ration mixture for any type of feed—even baled hay.

Dollar for dollar you won't find a more economical bunk-feeder combination. And, since there are no augers, chains or belts you'll find maintenance expenses are close to nothing.

That's the "562". A little money. A lot of versatile bunk.

### THIS ONE TRAVELS

### Van Dale SCF1400 & SCC1400 Chain Feeder and Conveyor

Workhorse.

That's the Van Dale 1400 Feeder System. It delivers up to 40 tons an hour of hard-to-feed materials. And keeps them uniformly mixed the entire length of the bunk.

The "1400" system is designed especially for large operations. The entire unit can be suspended or floor mounted with speed and low installation costs through Van Dale's exclusive "snap-together" construction.

All galvanized metal construction means less upkeep and maintenance. The motor and drive unit remain stationary and fully shielded for maximum safety and minimum repairs.

Compare any large capacity feeder system with Van Dale. You'll choose the workhorse "1400".

Ask Your Van Dale Dealer About The New Agri-Leasing Program.

### THIS ONE AUGERS

Safety covers not shown

### Van Dale Mammoth 14 Multi-feeder

Efficiency.

That's the Van Dale M14. It can make your diversified livestock operation a single system. Because the M14 can feed up to four different lots at one feeding. And, each lot can receive its own special ration.

The M14 has a massive 14' trough and is fed by a bearing suspended 12' auger. It can provide you with up to 200 feet of feeding and will dump rations on either the left or right hand side. Or it can carry feed all the way to the end of the trough before dumping.

For mixing concentrated additives, the M14 auger action is unequalled. It provides consistently uniform rations all along the trough.

Selective feeding of different feed lots. High capacity feed line. Uniform feed additive mixing. That's the Van Dale M14.

Non-Stop Feeding
