

Winners of the Twin Valley FFA Chapter pumpkin contest October 22 in the Twin Valley High School gymnasium are: left to right, Beth Ann Hoffman, five, first grade, most unusually shaped pumpkin; Wanda Bowman, nine, fourth grade, largest cir-

cumference at 43.5 inches, and Coleen Carvalho, seven, second grade, heaviest pumpkin, 27 pounds. A total of 183 pumpkins were judged in the contest, which will be held annually.

## George Steele Named Agway Head

George Steele of Pocopson, Pa., was elected chairman of the board of directors and president of Agway Inc. following the cooperative's seventh annual meeting recently in Syracuse, N.Y.

Steele succeeds Harold G. Soper of Geneva, N.Y., who retired from the board and from the chairman and president's offices at the close of the meeting. Soper had been board chairman since 1966 and president since 1970.

Henry W. Bibus of Wrightstown, N.J., was elected vice

chairman of the board, succeeding Steele, who had held that post since 1970.

Ronald N. Goodard, executive vice president and general manager, and Edmund H. Fallon, senior vice president and chief administrative officer, were renamed to their present posts by the board.

### Farm News Brief

The macadamia nut, a hard-shelled nut somewhat resembling a filbert, is Hawaii's third largest crop and ranks directly behind sugar and pineapple.

## ATTENTION

### STAUFFER CHEMICAL CO. DEALERS AND DISTRIBUTORS!

Due to a conflict of meetings, the Stauffer Dealer-Distributor meeting scheduled for this area on Nov. 16

## HAS BEEN CHANGED TO FRIDAY, NOV. 19.

Same Place and Time.

More than four out of each five dollars worth of farm products are now produced on farms which have annual sales over \$10,000.

## John Deere 34 and 40 SPREADERS

Easy to load . . . easy to operate . . . easy to maintain. Those are three good reasons to buy a 145-bu. 34 or 175-bu. 40 Spreader.

Both spreaders are built low to scoot under barn cleaners or fill easily with a front-end loader. Simplified rope controls and single pole hitch mean easy operating, easy maneuvering. Greasing and adjustment points are in the open, easy to reach.

Beater and endgate options let you choose the best combination for your individual needs. Credit? You bet.

## THERE'S A LITTLE PART OF VAN DALE IN EVERY UNLOADER...

## BUT STILL ONLY ONE THAT'S GOT IT ALL TOGETHER.

In 1950, we introduced the most efficient silo unloader to the market. Simple, but efficient.

We've changed during the last 21 years. Added self-cleaning, wide throat impellers for tough to handle haylage. Dual, no-plug augers for smooth silage movement. Dependable, weather-sealed electrical systems to prevent failures. And numerous other performance-features "firsts."

If you look around, you'll find a little part of VAN DALE in just about every unloader...

But only Van Dale sells it all together.

**MODEL 1020 F** 10-16 Ft. Diameter Silos—delivery to 15 tons/hr.

**MODEL 1230** 12-30 Ft. Diameter Silos—delivery to 25 tons/hr.

**INDUSTRIAL** Up to 40 Ft. Diameter Silos—delivery to 40 tons/hr.

**VAN DALE**

Box 337, Long Lake, Minnesota
