

Pennfield's milk replacement . . .

for the get up and Go-Calf

Pennfield Go-Calf is the ideal milk replacer to use after the first three to four days of colostrum. Therefore, it lets you get your valuable, fresh milk to market sooner and in some respects is better than Mother Nature's own formula for the calf.

By adding high quality animal fat, we've increased the energy level of Go-Calf. We've added the proper vitamins and antibiotics to keep you calves frisky and healthy and growing quickly.

Call Pennfield today and ask a Dairy Specialist about our especially palatable, easily soluble Go-Calf. The early growth of your calves influences eventual size and capacity to produce milk. And that determines the size of tomorrow's milk check.
