

Former Local 4-H'er Gets High Korean Award

Darvin E. Boyd, former outstanding Lancaster County 4-H youth, has received the National Medal—Order of Civil Merit, Moknyon Jang, one of the highest honors awarded by the government of the Republic of Korea.

At 29, Boyd is the youngest person to receive this high honor and recognition from the Korean government.

The son of Elmer A. Boyd, Ephrata RD1, he is 4-H Program Director and Agricultural Consultant for the American-Korean Foundation.

The award and citation were presented on October 28 by the

Minister of Agriculture and Forestry, Kim Bo Hyon, on behalf of Park Chung Hee, the president of the Republic of Korea.

An eleven-year 4-H'er in the United States, Boyd has been honored many times before. He was the winner of the Pennsylvania 4-H Achievement Award in 1961, and attended the National 4-H Club Congresses in Chicago and in Washington, D.C., as a Pennsylvania delegate. He supported his entire college career with profits received from 4-H projects.

His first went to Korea in 1964 as

Darvin E. Boyd, right, former Lancaster County 4-H'er working in Korea, receives the National Medal—Order of Civil Merit, from Kim Bo Hyon, Korean Minister of Agriculture and Forestry. At 29, Boyd is the youngest person to receive one of Korea's highest honors for his "great achievement and meritorious service rendered in promoting the Nation's welfare by devoting yourself to the social development of our country."

the grassroots ambassador of friendship in the International Farm Youth Exchange Program. While there, he developed a deep interest in improving the life of the rural people. "The training of 4-H members is the first step in developing better leaders", said Boyd, who sees as his goal the fulfillment of a better life for the many people in Korea who rely on the soil as their main source of life.

As director of the Foundation's agricultural program, Boyd has worked tirelessly since 1966 to train Korean youth in leadership, citizenship, service, earth-block housing, bench terracing, and the care and management of fruit trees, field crops, and livestock.

A graduate and former student body president of Delaware Valley College of Science and Agriculture, Boyd holds a Master's Degree in Public Administration from Pennsylvania State University. He is married to the former Linda Stehamn of Lutz.

The American-Korean Foundation, an international nonprofit agency, was formed at the suggestion of the late President Eisenhower to enable Americans to give person-to-person assistance to the people of South Korea. The Foundation has executive offices at 345 E. 46 St., New York, and field offices in Seoul, South Korea.

Guernsey Queen Contest Is Slated

The Pennsylvania Junior Guernsey Breeders' Association is again sponsoring a Guernsey Queen Contest Sunday, January 9, in Parlor A on the Second floor of the Farm Show Building.

The contest will start at 1:30 p.m. The queen will be crowned immediately after the judges have reached a decision.

The queen will have expenses paid by the Junior Association to the American Guernsey Cattle Club meeting at Grand Rapids, Mich., April 17-19. All adults and 4-H youngsters are invited to watch the contest.

Milk Problems Increase, Co-op Speaker Says

"The problems of shifting milk on weekends have not lessened, but have increased," asserted Watson E. Buckman, director of transportation, Inter-State Milk Producers' Cooperative.

The transportation expert told the representatives of more than 3,000 dairy farmers from a four-state area that this problem is caused by the continued shift of milk sales from home delivery to store sales.

"It is further compounded," Buckman cited, "by store sales running very high during the week, making it necessary for the dealer to need a large volume of fluid milk during the weekdays and a relatively small amount on the weekend when stores are closed."

As a result of these continued problems of shifting milk, Buckman announced a study is under way for the elimination of duplicate truck routes and the probability of zoning all hauling routes. The transportation director added that, because of geographical locations of many of our producers, considerable time will be necessary to complete the ultimate goal of the study, which is elimination of all unnecessary duplication of hauling.

"There is much work to be done in the hauling work of your cooperative's activities," Buckman asserted. "The importance of this work has increased when you review the number of plants that closed throughout this market in the past year."

Buckman added, "There is still considerable effort needed and that much can be accomplished in hauling."

He concluded by noting that in many instances this "three-day weekend", with stores closed, taxes the ability of manufacturing facilities in this market area to handle such peak loads on a weekend basis.

In the Kitchen

MUSHROOMS LYONNAISE

- ½ cup (½ tub) diet margarine
- 1 lb. mushrooms, sliced
- ½ cup finely chopped onion
- 1 tbsp. finely chopped parsley
- 1½ tsps. salt
- 4 tsps. lemon juice

Over low heat, melt diet margarine in a large skillet. Add mushrooms and all other ingredients. Saute mixture until tender and serve. Makes 4 to 5 servings.

NOW, WE HAVE FROST. Top Dress Alfalfa
