

Early Southern Lancaster County History Is Described

Fulton Grange 66 held its regular meeting January 24 at the Grange Hall at Oakryn with Richard Holloway, Master, in charge of the business session.

Area residents and visitors from Lancaster and Oxford attended the meeting when Howard Feather of Lancaster spoke to the group on The Early History of Southern Lancaster County. He illustrated his lecture with colored slides, an early map of the area and charts he has compiled from old ledgers and postal records from the Pleasant Grove store, an 1831 Little Britain

minutes or until done. Makes two loaves.

First Meal of Day Important

The child that starts school on an empty stomach may end school with a not too full mind. A well-fed child, or adult, is more apt to be alert and more eager to learn. And the quality of food your child eats may be more important than the amount he eats.

Start the day with a well-planned breakfast. Adapt the basic breakfast pattern of fruit, cereal and milk or eggs and bread to meet your child's needs.

Encourage him to take advantage of hot lunches at school. The Pennsylvania school lunch program is designed to improve the nutrition of school children by serving well-balanced noon meals. Free or reduced price lunches are also available to children of low income families.

Keep a stock of suitable light snacks of fruit, vegetables and milk for your child when he gets home from school. Avoid serving him sweets for snacks because these will dull his appetite for meals.

To complete the day's meals serve important protective foods for dinner such as meat, fish, eggs, cheese, milk, green and yellow vegetables, fruit and whole grain enriched bread.

See that your school age child, and everyone in your family, starts off the day with a good breakfast and follows it with nutritious meals and snacks throughout the day

questionable boundary between Pennsylvania and Maryland; where the township boundaries were located originally, and how the important roads were relocated as bridges replaced ferryboats across the Susquehanna River.

Very little money changed hands as early settlers bartered for staples at the local general stores and for liquors at the taverns.

Mrs. Rebecca Quinn announced the National Grange sewing contest which will end April 30 locally. She has entry blanks and details for the contest.

Mrs. J. Stanley Stauffer Jr., Lecturer, announced the art, photo, poster and talent contests and asked for contestants.

Clifford Holloway Jr reported that the Southern Lancaster County Family Health Center now has a six member advisory committee and that Jesse Cutler represents Fulton grange on the committee

The Grange purchased a new stage curtain track, had the curtains cleaned and put on the new track

Norman Wood, chairman of the legislative committee, reported on the Congressional reapportionment in Pennsylvania

Mr and Mrs. James Huber, chairmen of the young married's committee, will be in charge of the Valentine program at the next meeting February 14. They announced a Valentine contest—all members are to bring Valentines they make. Prizes will be given for the funniest and the prettiest. Members are to bring antique Valentines for display.

The Junior Grange will meet February 14. They had about 4½ tons of paper in their recent paper drive

Happy Homemaking

By BARBARA BAKER

To stiffen bristles on a broom or scrub brush, dip up and down in a solution of hot water and baking soda.

In icy weather, always carry along a book of matches in your purse. When the lock on the car door freezes, just heat the tip of the door key with a lighted match. It just slips right in the lock when slightly heated.

Before grilling a steak or even a hamburger in the stove broiler, put some water in the drip pan under the broiler rack. Fat drops into the water with no smoke, no sizzling fat, no charred odor, and the drip pan is a cinch to clean.

If matches prove too short to avoid burned fingers when lighting candles on a

birthday cake, try lighting a soda straw and using it as a taper to light the candles.

Cows Going Dry... Off Their Feed?

Here's the answer to your cow problems: Wayne Fitting Ration. When fed with high-protein roughages that justify a 14% protein milking ration, it works wonderfully, too. Especially formulated to rebuild the body reserves of dry cows. Great for growing heifers. Highly palatable. Lower in protein than the normal milk cow ration, but don't let that worry you for the short time they're off their feed. Main object is to get 'em eating again! The answer is . . . Wayne Fitting Ration.

Feed for the difference innovations make.
