

# Fulton Grange Hosts

(Continued From Page 12)

workers, at the present tuition rate of \$727.36 to educate a pupil, it would cost \$109,104.

Income sources to offset increases in cost from additional dwelling assessments, per capita, occupation and wage taxes could amount to \$13,993, State aid \$52,628, or a total of \$66,621. This would leave \$42,483 to be met by the district. There is

also the possibility of providing six additional classrooms, based on 150 additional students.

When asked how many were in favor of granting Philadelphia Electric Company permission to build this plant and a vote taken, two favored it, 31 opposed it, seven favored abstaining at this time and the balance indicated no preference by not voting.

J. Everett Kreider, Quarryville

RD1, presented the following resolution which was adopted by the group. Anyone desiring to sign it may contact him.

"WHEREAS, There are already six power plants within a 35 mile radius and all on the shores or islands of the Susquehanna River, making this an extremely vulnerable spot in case of any conflict. And

WHEREAS, Atomic power plants properly built and maintained to government requirements are reasonably safe but errors in construction, maintenance or operation can be extremely hazardous to anyone in the neighborhood. While there are several atomic plants in operation, they have not been in existence long enough to tell what effect they will have on residents of adjacent communities over a long period of time. And

WHEREAS, With the construction of the Muddy Run power plant a thousand acres, more or less, were taken from the Solanco area tax acreage, thereby increasing the tax burden on the Solanco taxpayers. And

WHEREAS, During the construction of power plants, due to the influx of migrant labor, the school system in the locality is overburdened with pupils creating additional expense to the taxpayers. And

WHEREAS, The construction of another atomic plant in our locality would remove another

# Pennsylvania Red Meat Production Reported

Commercial red meat production was 80,737,000 pounds in February, eight per cent less than January, but eight per cent more than February 1971.

Breakdown of production by category was: Beef, 32,700,000 pounds, up four per cent; Veal, 1,847,000 pounds, minus 18 per

cent; Pork, 45,725,000 pounds, up 13 per cent, and Lamb and Mutton, 465,000 pounds, up 25 per cent.

Total red meat production for January - February was 168,670,000, three per cent more than the 1971 output for the same period.

# Yoder Cow Exceeds 30,000-Pounds Milk

A Registered Holstein cow in the herd of Jefferson D. Yoder, 1,000 acres from taxation and double the danger from radiation. Be it

RESOLVED, That we the undersigned taxpayers of Solanco school district petition the Public Utility Commission to prohibit the Philadelphia Electric Company from building an atomic power plant in our community."

Among those attending the meeting were representatives of Drumore and Fulton Township Supervisors, Fulton Grange, Quarryville and Tucquan Lions Clubs and Quarryville Rotary Club

Elverson, has completed a production record exceeding 30,000 pounds of milk, according to the Holstein-Friesian Association of America.

Rocky-Side Lena 5753321 (EX-3E) actually produced a total of 30,720 pounds of milk and 1,005 pounds of butterfat in 305 days.

Her record started at the age of eight years two months. On a twice daily milking schedule, she averaged nearly 47 quarts of milk each day throughout her testing period.

Lena's production is more than three times that of the average dairy cow.

## ROHRER'S QUALITY SEEDS FOR FARM AND GARDEN

- Cert. Iroquois Alfalfa
- Cert. Saranac Alfalfa

# 4 WAY PLANTING ACCURACY

... with Allis-Chalmers cotton planters.  
... like adding extra acres to your cotton allotment!

- 1 UNIFORM SEED SPACING saves money on seed . . . cuts down costly thinning . . . and gives you the plant population you want to make the best use of available acreage.
2. UNIFORM SEED DEPTH gives you uniform germination and emergence for an even stand that'll be easy to cultivate and easy to pick.
3. UNIFORM SOIL FIRMNESS promotes even transfer of moisture and warmth from soil to seed for fast early growth.
- 4 UNIFORM APPLICATION of fertilizer and chemicals increases soil fertility . . . controls weeds and insects . . . gives you healthy, high-yielding plants

Use an Allis-Chalmers planter for 4-way planting accuracy. You'll see why Going Orange is Going Great!

# How would you pay a \$20,000 hospital bill?

Costs of medical care are skyrocketing. Hospital costs of \$60 to \$75 a day for board and room are not uncommon. Surgeons' bills can run into the thousands, with physicians' fees not far behind. Today, there is no such thing as inexpensive medical care.

How do you—as a farmer with all the special risks you face—protect yourself and your family against what could be catastrophic costs of an accident or serious illness?

Agway General has a plan designed for farmers by farmers. It's called the Agway Members Health/Life/Accident Plan.

It pays as much as \$20,000 for each accident or each sickness. It covers the costs of being sick at home: doctors' visits to your home, nursing care in your home, out-of-hospital drugs and surgery. And you can rest assured that Agway will never cancel your policy, no matter how many claims you make!

Take your first step towards protection against the intolerable costs of being sick or hurt. Call one of these Agway General Field Counselors today: Jay Stoltzfus, Leola, Pa. at (717) 656-7977 or Bernard C. Morrissey, Stevens, Pa. at (215) 267-7328.
