### National Livestock Assoc. Annual Report Available

The National Society of Livestock Record Associations has published its 1971-1972 annual report and directory of the 53-member recording associations representing Beef and Dairy Cattle, Swine, Sheep, Goats and Horses and Ponies.

A record number of new breeders registered a grand total of 1,873,623 pedigrees during the 1971 fiscal year, an increase of 2.54 per cent over 1970. The number of active breeders recording their purebreds numbered 395,148, a gain of 6.20 per cent and a new record for the Society. The transfers for the year totaled 1,156,518, a decrease of 5.60 per cent from the previous year.

The report listing the name, address, and the secretary of each breed association, together with a breakdown of the figures for each category will be sent, free, upon request to Allan C. Atlason, Secretary, 3964 Grand Avenue, Gurnee, Illinois 60031.

### Thoughts

(Continued From Page 16) a time. Keep grass height at 1 1/4 to 2 1/4 inches.

5. If watering becomes necessary, make sure it is done in early morning or evening hours.

There are many lawn mixture companies today. Scotts, Old English, Agrigrow, just to mention a few. The important thing to remember when selecting a mixture is to read the mixture percentages on the bag or box. Generally, bluegrass is recommended for sunny lawns and fescues for shady lawns.

For many, a lawn can be as satisfying as a work of art - or it may be a place to escape daily tensions. Whether your lawn is the size of your living room or covers acres of land, it's a spot of restful green on which you can relax and enjoy yourself. But a green carpet of grass doesn't just happen. It has to be worked at.
