WHAT DOES IT TAKE TO BREAK THE HEAT?

"Dairy scientists at Louisiana State University have learned that cows whose heads are air conditioned produce nearly 20 percent more milk in the summer months than they would normally."
(from Chemical & Engineering News, Dec. 21, 1970)

We can't air condition the heads of your cows, but we can insulate your barn, milk parlor, loafing shed and other areas where animals can enjoy comfort from broiling sun and high humidity.

KEEP 'EM COOL

WE INSULATE WITH SPRAYABLE URETHANE FOAM

and all we need is a clean, dry and moderately warm surface to apply our foam spray which sets in a matter of minutes.

WE ALSO INSULATE POTATO AND APPLE STORAGE FACILITIES, CHICKEN HOUSES, STEEL BUILDINGS AND WHATEVER ELSE YOU CAN THINK OF.
