Yoder Cow Completes Record

A Registered Holstein cow owned by Jefferson D. Yoder, Elverson, Pennsylvania, has completed a production record exceeding 30,000 lbs. of milk, according to the Holstein-Friesian Association of

America. Rocky-Side Lena 5753321 (EX-3E) actually produced a total of 32,543 lbs. of milk and 1,099 lbs. of butterfat in 365 days. Classified "Excellent-3E" in body conformation, indicated

"Lena" maintained this "Excellent" classification scoring 90 points or more on three different occasions as she grew older. Her record started at the age of eight years two months. On a two-times-per-day milking schedule.

BANVEL® Herbicide

POST-EMERGENCE APPLICATION IN
 FIELD CORN GETS TO THE ROOT OF YOUR TOUGH
 BROADLEAF WEED PROBLEM

HOW
 BANVEL
 TRANSLOCATES

Your corn crop is well along. But tough, deep-rooted weeds threaten to take over. The earlier you spray Banvel, the better, preferably before hot, humid weather.

Even though you spray over the tops of corn, normally no brittleness develops. If you see velvetleaf or pigweed, a lower rate of Banvel mixed with 2,4-D will give most effective control.

Banvel works! For one simple reason. Banvel translocates. Absorbed by leaves, stems, roots, Banvel moves with plant fluids from leaf tip to root tip. Destroys as it goes. So, no regrowth.

In permanent pasture, Banvel gives you easy control of more than 40 of the most common weeds, including wild garlic, weed brush and weed trees.

Cost of Banvel? Up to \$1.90 per acre broadcast in corn. Ask your dealer or custom sprayer for full information.
