

International® 225 Hayswather

Top quality performance is quick and easy with the International 225 Hayswather. Just match these big capacity features with your toughest crops, the International 225 Hayswather does the rest—quickly, easily, and always at top performance:

- Easy adjustable windrow forming shields or take them off and lay a wide swath.
- Big, all-condition flotation tires.
- Fully adjustable seat—comfortable ride.
- Exclusive torsion bar float—fast, safe and responsive.
- Wide 10-ft. tilt adjustable platform.
- Four bat, low profile reel with breakover bar.
- Conditioner placed a long distance from knife—won't pull up crop before it is cut.

New Sun-Mastr Hull Designed to Control Dust
A new "flow-thru" hull design has been introduced on the Sun-Mastr Flail King Shredder which keeps dust and chaff away from the tractor operator. This is accomplished through improved discharge and better distribution of shredded material from the new "flow-thru" design.
White the new design changes

the units appearance and material discharge pattern, the internal operation of the unit has not been changed from the proven design that has given the Sun-Mastr Flail King its reputation of dependable, economical performance.

Years of field use have proven that the dynamic balancing of every Sun-Mastr Flail King rotor with knives mounted is largely responsible for long, low-maintenance operation. By balancing the rotor shaft to within one ounce inch, field vibrations are virtually eliminated. The one-piece cup knives are also designed to create suction which picks material up off the ground for more thorough shredding. This allows the unit to

operate four to six inches above the ground to tractor power and knife life are not wasted chopping dirt. This actually lowers tractor horse-power requirement. The "built-in" cutter bar helps to insure all materials are finely shredded. When off-set center knives are installed, the unit is ideal for cutting diverted acres.

Lasso and Lasso Plus Atrazine Cleared for Use on Sweet Corn

Use of Lasso EC herbicide and Lasso plus atrazine tank mix on sweet corn has been accepted by the Environmental Protection Agency in an expanded label clearance granted to Monsanto Company. Lasso currently has label clearance on corn for grain and silage and for soybeans and peanuts.

Monsanto scientists said the expanded clearance for Lasso and the Lasso plus atrazine combination will provide both processing and fresh market sweet corn growers with a more effective means of controlling most annual grasses and broadleaf weeds with maximum cropping flexibility.

The use of Lasso alone permits all crop rotations without danger of herbicide residues in the soil and controls a wide range of annual grasses and many broadleaf weeds. Atrazine mixed with Lasso extends the range of broadleaf weed control. Rates of application and directions for use are similar to those for corn as printed on the Lasso label.

During 1972, the USDA is looking to implement a broad program designed to help farmers control pests more effectively and more economically, while at the same time reducing the amount of DDT and other chemical pesticides currently being used.

Snapper V series mowers.

The Snapper V-21 and V-18 rotary mowers. Durable, dependable and efficient. Available in hand or self-propelled models. With or without electric starters. See them now.

- Vacuum cleans your lawn
- "Down-flector" blows walks and driveways clean, windrows leaves, and can be used in areas where bagging grass is not needed
- Grass bag between the handles for close trimming on both sides

We're your kind of people.

NOW YOU NEED PEOPLE WHO
BELIEVE IN THE FUTURE OF
FARMING AS MUCH AS YOU DO.

Getting started in agriculture is no easy job. We know that, and we're ready to back you with money and counsel. We'll give you short-term loans through Production Credit Association, or long-term loans through the Federal Land Bank Association. Our interest rates are the lowest possible. And, we can advise you on land values, crops the market, or anything else that'll help. So, if you're just getting started, start off with a good, experienced friend... Farm Credit.
