RAISING BABY CHICKS AND STARTED PULLETS ON  
YOUR FARM WHERE LEUCOCIS IS A PROBLEM?

## WE RECOMMEND YOU ORDER MUSSEY'S M-327 CHICKS

STARTED AND MATURED PULLETS AND YEARLING,  
HENS AND BREEDING COCKEREL.

**WHY?** Because our breeding program on our  
farm has been very effective in breeding  
resistance to Leucosis and Marek's disease  
We can offer you M 327 chicks vaccinated or not  
vaccinated for Marek's disease and you can expect  
excellent results.

By having built this resistance to Marek's and  
Leucosis during the earlier years, we have been able to  
improve our egg size, our egg production and what it  
takes to produce a chick that will develop into a pullet  
capable of showing a profit even in a year which we are  
experiencing at present.
