

# AGWAY

## AGWAY CARE MEANS MAXIMUM PROFITS FOR HOG PRODUCTS

### CARE IN FEED FORMULATION

You know the important thing is not the cost per pound of feed, but rather the cost per pound of gain and profit. Agway feeds, from Squealer for the baby pig, right on through the growing and finishing period, will do the job with top efficiency. The benefits to you are better health and feed conversion, lower mortality, and extra dollars.

### CARE IN ANIT-BIOTIC SELECTION

Use of the Pfizer anti-biotic, Oleandomycin in Agway grower-finisher feeds means pigs grow faster on less feed per pound of gain all the way to market. Since there's no withdrawal period, you never have to switch to a non-medicated feed. So there's no slowing down as your pigs approach market weight.

### CARE THROUGH RESEARCH

Every part of the Agway Swine Enterprise package is thoroughly tested before it is offered to you. You reap the benefits from work conducted at the Cooperative Swine Research Farm at Lexington, Illinois, — one of the finest in the country. The result: a more profitable hog business.
