**To Obtain Farm Pond Permit**  
There are many farm ponds in this county and in this part of the state; many of the ponds present a problem with algae and weed control. The prevention of this problem is the best cure because once the pond is covered with algae or filled with weeds, it is very difficult to entirely remove the material. Both of these problems are usually caused by the water being too shallow (less than 18 inches) or because the water is allowed to stay clear. Clear water allows the penetration of the sunlight into the bottom of the pond and encourages the growth of weeds and algae. Present regulations require that pond owners fill out a permit and get permission from the Pennsylvania Fish Commission before treating their ponds. This is important to protect yourself from any possible damages done downstream after the pond is treated. Application blanks are available from our Extension Office or from local Fish Patrolmen.

## Call on Casserole

Gardening calling? Casseroles can come to a busy woman's rescue, if she gives them a chance. Prepared early in the day and refrigerated, they free a cook of concern for meal preparation while she's out or away. It takes little time to brown ground beef to add flavor and food value to made-ahead rice, macaroni, spaghetti or noodle casserole combinations that travel with ease from refrigerator to oven to table.

## In the Kitchen

### MEXICAN HOT CHOCOLATE

4 tbsps sugar  
4 tbsps. unsweetened cocoa  
1/2 tsp. ground cinnamon  
Dash ground nutmeg  
1/2 cup water  
1 qt. milk  
1 egg white, unbeaten

Combine sugar, cocoa, cinnamon and nutmeg Blend in 1/2-cup water and boil one minute. Beat milk and egg white together only until blended; stir into chocolate syrup Cook until hot (do not boil), beating constantly with a rotary beater Serve hot with cinnamon sticks, if desired Makes six portions
