Eastern Pa. and N.J.

Wednesday, Aug. 2

Prices of light type hens steady. Demand fairly good with processors operating near full capacity. Farm offerings fairly heavy as declining egg market tends to discourage holding for further production. Offerings of heavy hens ample for a fair call. Occasional reports indicate some heavy hens moving to leghorn plants for canner packs. Prices paid at farm: light type hens 5-9 mostly 8½-9 in Pa., mostly 8-9 in N J Heavy type hens 12-13.

BROILERS

Wednesday, Aug. 2

Ready-to-cook movement improved and generally considered good as buyers prepare for weekend activity. Slaughter schedules increased in most plants in an effort to fill full needs. Advance interest developing satisfactorily at generally unchanged prices with this week's levels. Prices trended slightly higher within unchanged ranges on both plant and U.S. Grade A. Live supplies fully adequate. Undertone fully steady.

New York Eggs

Wednesday, Aug. 2

Prices about steady. Demand is generally no better than fair. Some improvement is noted in those instances where buyers were delaying purchases until expected price declines became effective. A considerable volume is being traded at prices to be established based on lowest levels reached during the week. Floor stocks of mediums are the most abundant size available, large ample, smalls more than ample. Extra large and jumbos are well cleared. Carton demand

Chester Co. Holstein Day

The Chester County Annual Holstein Field Days have been scheduled for August 10 at Bryncoed Farms, Chester Springs. Bryncoed Farms is a division of Luden's Candy Co., and boasts a 500-cow herd.

The dairy operation is a completely new set-up, with an automatic take-off milking parlor. There is an observation deck where visitors will be able to watch the 1:00 p.m. milking.

Judging will start at 10:00 a.m., after which there will be a chicken barbecue. Tickets cost \$2.00 for adults and \$1.50 for children. Reservations can be made by calling Sam Hacker at 215-458-5275, or Glenn Freece at 215-932-9762.

The farm is located 10 miles east of Morgantown on St. Matthews Road. It is about one mile east of the Route 100 and Route 401 intersection.

Happy Homemaking

By BARBARA BAKER

Families who are taking small children on a vacation should put a whistle, on a cord, around the neck of each child and teach each child to blow his whistle if he strays from the family.

When taking children on long vacation trips, take the television trays off their stands and put one for each child in the car. The tray serves as a desk and keeps crayons, books, etc., from falling to the floor each time a corner is turned or a sudden stop is made. Also, they are wonderful for catching cookie or cracker crumbs.

It's a good idea to carry shoe boxes, lined with aluminum foil, in the trunk of the car while on a vacation trip. When you stop in at a drive-in for sandwiches, milk shakes, etc., place the food for each person in a box. The boxes are especially good as trays for the children.

When traveling, keep a large safety pin attached to the lining of your purse. If you slip your rings or watch on the pin when you wash your hands, you will not run the risk of leaving the jewelry behind.

Tall crops cut visibility at intersections and increase the possibility of accidents. Consider motorists, and seed corners with a low growing legume, and you will help increase the visibility of approaching vehicles.

Oswalt ENSILMIXER

New Oswalt ENSILMIXER now has dynamic auger action with center discharge

ENSILMIXER gives you maximum feeding efficiency by providing thorough mixing of grains, concentrates, roughage and medication assures accurately balanced rations and greatest conversion of feed energy to pounds of meat.

The dynamic auger action provides gentle, thorough mixing for a more palatable ration, with a minimum of compaction, lumping and poor dispersion.

Speeds up your feeding too, because ENSILMIXER completely mixes and blends all ingredients enroute to the feedlot or in just 3 minutes.

You can count on a minimum of downtime and maintenance cost. ENSILMIXER has fewer moving parts, and the heavy steel construction throughout is specially engineered to take rugged feedlot use month-in-month-out.
