Using Yesterday's Methods To Build Tomorrow's Beef?

Are you profiting from the latest rumen nutrition findings? They prove conclusively that you can build beef *faster*, with *less* feed, on "protein variety" instead of the old fashioned "single protein" supplement (such as soybean meal). Wayne Beef Balancers are in tune with the times. Let their appetite-stimulating ingredients and tested, protein-varied contents, with stilbestrol, aureomycin and cost-cutting urea, get *your* beef to market faster. Formulated to fill your individual feeding needs. See us!
