This sale features one of the better herds in Harford County. The herd consists of 60 head of high grade Holstein cows on D.H.I.A. testing for 10 years. The best sires from the Md. & West Va. Artificial Breeding Service have been used. At present, the cows average 48 lbs. of milk per day. Approximately 20 cows freshened within the last 60 days; 14 are close springers; and the balance is in full flow of milk and bred for fall freshening. The herd has been examined for pregnancy by Dr. Richard Cook.

... that adds extra flexibility and efficiency to forage harvesting

This one changes heads in a coffee break Feeding green-chop twice a day will hardly slow down your silo filling operation

There are row-crop attachments for every row width, plus direct cut and windrow pick-up attachments. And whichever attachment you're using, you can be certain of smooth feeding, uniform chopping

Unique "Short-Flow" feeding system keeps the crop moving uniformly and steadily to the cut-and-throw cylinder. You get big 60-ton per hour capacity... with more of it to the length you want. See it today
