

The 1972 Lebanon County Plowing Contest was held last Saturday at Schaefferstown. The large plow com-

petition was won by Joseph Schott, Lebanon R5, while the small plow title went to Paul Finchbaugh, Jr., Lebanon.

Next time you're in a restaurant, ask for cream in your coffee or milk on your cereal and see what you get. James L. Busey, a professor of political science at the University of Colorado, was so aggravated by what the waitress brought him that he voiced a complaint to the Food and Drug Administration. "It is becoming increasingly difficult to obtain 'real' cow cream or milk for coffee, for putting on cereals or even explain to waitresses what real cream or milk is." If the customer tells the waitress he wants cream, she is more likely to bring a non-cream substance which, Mr. Busey contends, "is misleading and unintentionally deceptive."

Odd Creature

The sea potato, also known as the heart urchin, burrows itself into the ocean floor, stretches its vacuumlike legs up through the sandy bottom to suck up food, then draws its legs back down through the sand.

GRAIN DRYERS

EXCLUSIVE SPEEDY ROOF RAFTERS MAKE SPEEDY CORN CRIBS

Twice as Fast Twice as easy to erect

Speedy roof rafters guarantee easy, proper placement of roof panels the first time. Rafters add great strength to the roof. Panels need only to be bolted together in three places. It's another big time saving feature you get only in Speedy Bar-Lok corn cribs.

Stands up best—lasts longer
Wire mesh panels are 5-gauge wire—thick as a 1/4" bolt! No

bulge or sag. Sturdy 26-gauge galvanized roof is securely anchored to 9 steel roof rafters and side panels. Can't blow off!

Come in today and see the Speedy Bar-Lok corn crib. Let us prove to you that Speedy is twice as fast—twice as easy to erect. Let us show you all the other features that make Speedy Bar-Lok your best corn crib buy.

GRUMELLI FARM SERVICE

Quarryville

Add an extra money-making month to your year!

Unipel 20-10-10 high-nitrogen fertilizer lets you increase the value of Fall plowing.

Now there is a unique fertilizer that is ideal for Fall plowdown. It is Unipel 20-10-10. With Unipel fertilizer, you can do it all in the Fall. One pass across the field and you've got your entire basic fertilization job completed.

Ordinary fertilizer is a collection of ingredients. You scatter it and hope your land gets the right proportions of each. But Unipel fertilizer is different. Each and every pellet contains the precise ratio of guaranteed nutrients. When plant roots come across a Unipel granule, they get a complete three-course meal. So it just figures that Unipel fertilizer gets plants off to a faster, stronger start.

And plants get a steady supply of nutrients throughout the growing season, because Unipel fertilizer is formulated to give timed-release of ingredients.

So now you can do it all in the Fall and be on your way to bigger yields when you harvest next year. We'll be around soon with the whole story.
