That proper diet is Purina Milk Chow Special. It's a high efficiency milking ration that contains carefully selected ingredients blended together in the right amounts to help your cows produce all that's in them.

4 New Sound-Idea Tractors Featuring Sound-Gard body... a world apart from any old cab

It's not incomplete like a cab. It's a total body—the John Deere Sound-Gard body, a complete unit with seat, all controls, and instrument panel intact... a total body like that on your car and pickup. Sound-Gard body attaches firmly to the tractor... yet it isolates you from that tractor. It's actually free to flex slightly when you're on rough ground. Noise level is down to 85 dB(A) so you can easily hear the optional radio or 8-track stereo tape player. Equip Sound-Gard body with heater and air-conditioner and you have total temperature control winter and summer. Sound-Gard body—one of the many sound ideas in new John Deere 4030, 4230, 4430, and 4630 Tractors. Stop in soon and get the full story.
